"There are a lot of different voices today claiming inside knowledge of what is happening in our solar system and beyond. In my research, only Elena Danaan has an ongoing history of revealing information that no one without direct knowledge could possibly know. Then later, that information becomes public knowledge and verified, thus continuing to establish her credibility"
- Dan Willis, Researcher

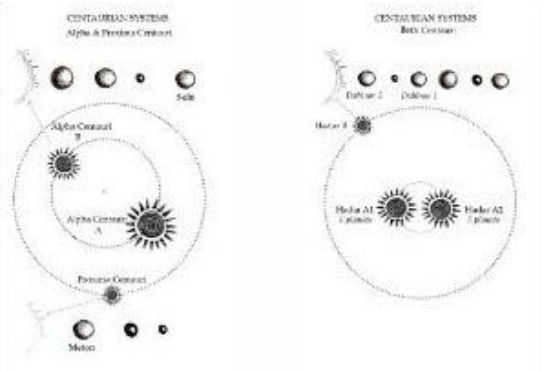
Video Review of 27 corroborations of Elena Danaan's information

Inbäddad YouTube-video på originalsidan:
https://www.youtube.com/embed/0YgrVPoe_7w?si=oSuxL9VFI4HlKX2Z

3 Examples:

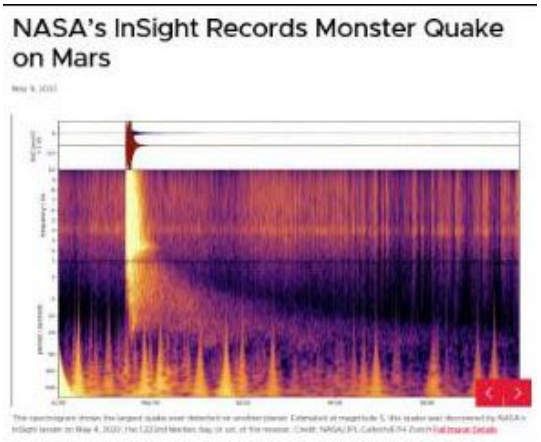
Of the many corroborations listed of Elena's information, there are for example 3 that were scientifically verified by NASA afterwards, in which there is no way that someone could fabricate without having valid direct knowledge.

2022 FEB 10 - Elena identifies 3 planets in Proxima Centauri system 2 years before verified by NASA



2022 MAR 28 - Thor Han says to watch for activity on Neptune to be revealed, then two weeks later NASA substantiates it

2022 APR 27 - Thor Han reports a severe quake on Mars and one week later NASA reports the largest quake ever detected.



Preface by Dan Willis:

Ever since the UFO/ET matter has been made aware of by the general public decades ago, we have been under psychological warfare by infiltrated deep state elements and their assets using secrecy and deception to hide the full truth in order to confuse the public. This serves to allow the injection of a false narrative which supports a hidden agenda that does not serve the best interests of humanity, but rather the self interests of these deep state elements to enslave rather than liberate humanity. As the full truth exposed of this matter has the most profound implications for all beings on our planet.

In a psychological war to control our perceptions, how does one determine who is real and who is a deceiver?

The good thing about truth, is that it has the enduring ability to confirm itself, whereas a lie eventually over time will be exposed. This is why deep state assets mix a lot of truth with their information in order to gain credibility with the public, while mixing in a lie. Many of these lies are then used not only to sow confusion to the public which can effectively hide the truth, but through association of similar topics, the lie acts to discredit others who are bringing forth real information. An obvious example of this is

associating truthful information together with a lie is the "flat earth" theory, allowing the truthful information to be disregarded through association in the public mind.

Witnesses, whistleblowers, contactees etc. truthfulness can be gauged by a number of factors that yield either a high or low probability representing truth. Today with so much information and disinformation available through the internet, anyone after watching multiple online videos can easily fabricate a false testimony incorporating several common elements brought out by multiple perspectives and appear to sound feasible and credible. It's hard to comprehend why an individual would purposely deceive the public. They could be delusional, seeking attention, unknowingly mind controlled or are being compensated by deep state intelligence agencies in order to be an asset in spreading disinformation.

Over 25 years ago when I joined 20 military and intelligence witnesses that each stated before the media of the world that we are each willing to testify under oath before a congressional hearing, with some of us supporting their testimonies with official documentation, the degree of probability of being disinformation by these witnesses is on a scale of being quite low to zero. On the other hand, the way the mainstream media reported this world disclosure event using what is termed a "limited hangout" is quite high that they were indeed the assets promoting disinformation. The event inspired a UK computer hacker to verify this information in the computer systems and discovered the US Navy's Solar Warden Secret Space program. He was facing 70 years in prison for this act and the probability that he made up the story and was giving disinformation is also quite low.

Since that time many individuals claiming to have total memory recall of their service in space with the Solar Warden program as well as other programs in space, all have very similar accounts as secret space program witnesses. Unfortunately, due to it's nature, only William Tompkins was able to provide substantiating documentation in his involvement with the US Navy's secret space program.

If a person truly has inside information regarding these operations in our solar system that are hidden for the most part from the people dwelling on earth, then they would be able to provide information that can later be corroborated that is otherwise not accessible by any disinformation assets on earth.

Such a person is my friend Elena Danaan. Elena was rescued as a child by the Galactic Federation of Worlds from an abduction where they had to repurpose the abduction implant to be instead a secure military communication device which she uses to communicate with her contact and rescuer Thor Han. Elena has graciously accepted the task of being an emissary for the Galactic Federation of Worlds and has been receiving and sharing information from her communications as well as her firsthand off planet experiences. Her information has been consistently corroborating with actual events that are revealed and confirmed shortly after disclosing them publicly. Others who claim contact with the Galactic Federation of worlds have been unable to do this and thus validate their contact.

Elena became more publicly active in 2020 and released her first book "A gift from the Stars" where she had been shown in order to graphically detail 110 different extraterrestrial races with illustrations and the unique

particulars of each race and specific details of each of their home planets.

Dr Michael Salla, ever since the 2001 disclosure event has been vetting many of these witnesses and doing scholarly research into this subject for decades. He has closely been taking account of the messages shared by Elena and finding them to match perfectly with some of his other sources, such as his military witness insider "JP" and others.

The pattern of information that Elena releases that she receives from Thor Han followed by actual corroboration of her information, represents a long list that I've taken note of.

Serious researchers of this subject, should also take note as well and do the due diligence and also confirm the credibility of the information provided by Elena Danaan, as well as all others who are claiming they have accurate inside information of what is occurring in our solar system and beyond, in order to expose what is accurate and what is disinformation.

Communications received via a secure military quantum communication implant with the Galactic Federation of Worlds (GFW) through her contact Thor Han Eredyon

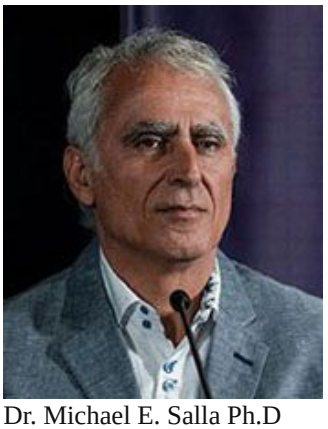
Elena Danaan was first abducted as a child by grays of the Orion (Nebu) group and rescued by Thor Han. The Orion grays were violating the Prime Directive in their act of abduction against her consent. The Orion group originally put an implant into Elena during the abduction which the GFW repurposed it to work instead as a communication device for the GFW. Elena has been authorized to be a emissary for communicating the messages from GFW to the people of earth.

Thor Han Eredyon
Illustration by Elena Danaan

Special acknowledgement goes to the research work of Dr. Michael Salla, who was originally inspired by the witness testimonies disclosed at the 2001 National Press Club event into the subject of exopolitics, which is the political study of the key actors, institutions and processes associated with extraterrestrial life. As a teaching professor at a major university at the time, his interest in the UFO/ET matter conflicted with the university's accepted research criteria, and as a result was fired for his interest in this important subject. He now is able to devote full time investigative research and has graciously allowed me to quote passages from his articles and best selling series of books that I highly recommend in order to gain a better understanding of this complex subject. Dr Michael Salla has been extensively researching the information that Elena Danaan has provided, much of which has corroborated with scientifically verifiable events. Note that many quoted text passages in the below events come directly in part from research articles written by Dr Michael Salla on Elena Danaan that can be found on his website Exopolitics.org

Dr. Michael Salla has stated:

"This kind of scientific corroboration is an important reason why I enjoy working with Elena and believe her information from her Galactic Federation sources is reliable and well worth considering to get the big picture of what is happening on Earth, our solar system, and beyond." Ref



Dr. Michael E. Salla Ph.D
Exopolitics.org

Currently 32 corroborations of Elena Danaan's information are listed:

The following is a list of events in chronological order that corroborate the information from Thor Han Eredyon that has been provided by the Galactic Federation of Worlds emissary Elena Danaan.

#1 - 2018 NOV 10 - Thor Han's space ship arrives in Ireland and beams Elena onboard - Pilots and several news media reported this fleet of UFOs

#2 - 2020 DEC 7 - Elena published her book about the governments working together with Galactic Federation three months before Prof Haim Eshed publicly announced it

#3 - 2021 JUN 6 - Thor Han reveals Dark Fleet Evacuation from Antarctica confirmed by McMurdo Base employee

#4 - 2021 JUL 17 - Thor Han reveals the Jupiter meeting agreements which corroborates with the signing of the Artemis Accords

#5 - 2021 AUG 30 - Thor Han reveals the full text of the Prime directive matching what was given to Gene Roddenberry

#6 - 2021 OCT 4 - Thor Han reveals the meetings on Ganymede which corroborates with other witness testimonies

#7 - 2022 JAN 4 - Thor Han reveals arrival of Intergalactic Confederation is activating space arks in our solar system

#8 - 2022 JAN 4 - Thor Han reveals that there is a large Ark in the Atlantic Ocean a week before witness JP goes on a mission there

#9 - 2022 JAN 21 - Jean Charles Moyen and Elena go with Thor Han to experience the space ark near Lake Vostok, Antarctica

#10 - 2022 FEB 10 - Elena identifies 3 planets in Proxima Centauri system 2 years before verified by NASA

#11 - 2022 MAR 5 - Jean Charles Moyen has meeting with Elena on the mothership Excelsior and describes the exact experience onboard

#12 - 2022 MAR 28 - Thor Han says to watch for activity on Neptune to be revealed, then two weeks later NASA substantiates it

#13 - 2022 APR 22 - Crystal technology information from Jen Han Eredyon corroborating with Dr Marcel Vogel's research

#14 - 2022 APR 27 - Thor Han reports a severe quake on Mars and one week later NASA reports the largest quake ever detected.

#15 - 2022 MAY 6 - Thor Han reveals Intergalactic Confederation fleet near Earth's orbit on ISS camera feed as part of a disclosure plan

#16 - 2022 JUL 12 - A huge fleet of the Intergalactic Confederation ships parked behind Jupiter being spotted on James Webb Space Telescope?

#17 - 2022 OCT 20 - Starmaker designator symbol that Tony Rodrigues saw corroborated with Elena's description of Jen Han Eredyon's starmaker uniform patch

#18 - 2022 DEC 16 - Onboard the Meton spacecraft Elena Danaan views the future 20 years from now

#19 - 2023 JAN 1 - High Commander Ardaana says 2023 will be the year of rediscovery and the opening of the pyramids

#20 - 2023 JAN 7 - Thor Han delivers the "Disclosure Plan" at the Raven Rock Mountain Complex to a man Elena identified as General Glen VanHerck

#21 - 2023 JAN 23 - John Peterson from the Arlington Institute confirms regressive ET groups removed from solar system

#22 - 2023 JUL 8 - Thor Han Eredyon discloses that some civilian flights are now being tested. A month later on Aug 10th the first civilian flights were launched into space.

#23 - 2024 FEB 23 - Elena Danaan releases ENCYCLOPEDIA GALACTICA which corroborates with scientists that planet Trappist 1-H may be composed almost entirely of water

#24 - 2024 MAR 16 - Thor Han Eredyon discloses that Aerospace Corporation attempts to end run the Jupiter Agreements 2 days prior to its intent being published

#25 - 2024 APR 13 - Thor Han Eredyon discloses a secret deal made between Iran and Israel to avert a massive retaliatory regional war

#26 - 2024 SEP 27 - Thor Han Eredyon kept his promise to make a show in the sky with a fleet of Federation scout ships for the GSIC 2024 conference in Westminster, Colorado

#27 - 2025 JUN - Thor Han warned that in the future the preconditioning anti-propaganda will be to try to demonstrate to the world that the Galactic Federation is evil

#28 - 2025 NOV 10 - The ancient floating cities in the upper atmosphere of Saturn recently detected by NASA?

#29 - 2025 NOV 11 - Alex Collier meets physically with Elena Danaan onboard the Zenate mothership from Andromeda

#30 - 2026 JAN 4 - Elena Danaan traveling to Mars with Prince Ea describes exactly the planet's colors as newly released photos confirm

#31 - 2026 FEB 9 - NASA discovers on Venus vast underground lava caves as Elena described as she entered beneath the surface of Venus

#32 - 2026 MAR 14 - Astronomer detects strange object outside of Jupiter that appears in the form of "The Hub" that Elena described.

#1 - 2018 NOV 10 - Thor Han's space ship arrives in Ireland and beams Elena onboard - Pilots and several news media reported this fleet of UFOs

On the night of the 9th to the 10th of November 2018, Elena saw the orange ships hovering over the bay on the West coast of Ireland where she lived at the time. A flash of sparkling light showered down upon her in her bedroom, and she was beamed up inside of Thor Han's ship in a big flash of blue light. The following morning, Irish newspapers printed that there had been UFO sightings over the West of the country. The radio recordings of pilots which had flown over that area and the air control towers transmissions, went viral on internet. It was called the Shannon UFO Incident. In this report, experts conclude that the incident wasn't a natural phenomenon nor a military operation and advance instead the hypothesis that it was a real UFO fleet. Read Elena's full account here.

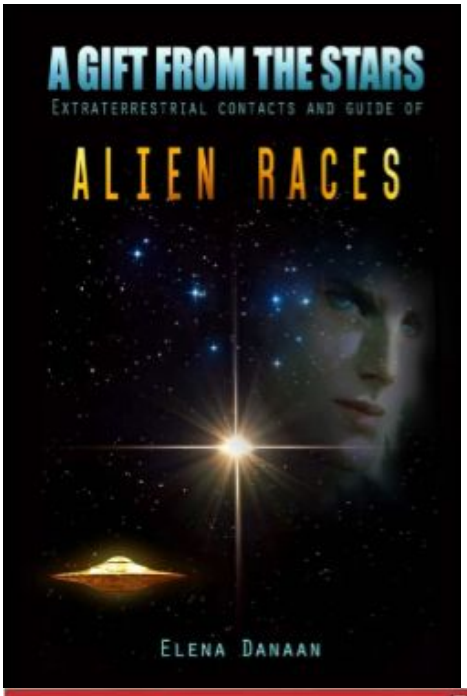
#2 - 2020 DEC 7 - Elena published her book about the governments working together with Galactic Federation three months before Prof Haim Eshed publicly announced it



SECTIONS SEARCH NEW YORK POST

Aliens in hiding until mankind is ready, says ex-Israeli space head

By Aaron Feis December 7, 2020 | 1:00pm | Updated

That's what Haim
Israel's space pro

Elena Danaan published "a gift from the stars" on September 3rd 2020 three months before Haim Eshed announced that some governments were working secretly in white programs with the galactic federation of worlds.

Ex-head of Israeli space program reveals joint US/ET base on Mars and that the Galactic Federation is awaiting the right time to be revealed to Earth.

Prof Haim Eshed, a senior scientist who for nearly 30 years headed Israel's space security program has revealed secret US extraterrestrial agreements, a joint US ET base on Mars, and how a Galactic Federation is closely monitoring human affairs. Major media around the world is covering Prof

Eshad’s revelations. He further declared that President Trump was on verge of extraterrestrial disclosure but was told to hold back by the Galactic Federation since we weren't at the right level of technological development. Apparently Space Force was created to help speed up humanity's technology base. Ref Ref Ref

#3 - 2021 JUN 6 - Thor Han reveals Dark Fleet Evacuation from Antarctica confirmed by McMurdo Base employee

Thor Han confirmed that as a consequence of the Dark Fleet being harshly hit by the Alliance and the Federation, the German (4th Reich) presence in Antarctica is abandoning their outpost. He told me that there was an exodus going on, towards colonies out of this solar system, through a portal (jump door as he calls it). He said that the Reptilians based in Antarctica were leaving too.

McMurdo Base Antarctica

A former employee at McMurdo Base in Antarctica confirmed Elena's information about the Dark Fleet evacuating Antarctica and handing over their bases to the Chinese. The employee "Frank" saw many Germans leaving in the middle of the 2021 Antarctic Winter, and many Chinese arriving at the same time.

On June 6, 2021 Elena received an email from Frank informing her of an unusually high number of people entering and leaving Antarctica through McMurdo, which is the largest base in Antarctica. This is confirming what Thor Han communicated about an exodus of the German 4th Reich Dark Fleet.

This is what Frank told Elena in an email that was later forwarded to Dr Michael Salla:

"I want to let you know that the Chinese have 5 bases here already and are setting up 4 more immediately during the absolute worst time of year. There are Chinese everywhere down here and up until a month ago I never saw even one.

Also of note, now Turkey has been sending in troops independently and so are quite a few other countries from Africa & South America all of them want to set up bases here and are bringing in the infrastructure to do so.

Everybody seems to want to get in on whatever is down here as soon as possible to not be left out. I am more certain than ever now that the mad rush is because there is definitely something here. I noticed more and more German speaking people coming through as well. Numbers have always decreased in the winter time down here not increased."

This is how Elena summarized her communications from Frank in response to Thor Han's message:

We received another message from Frank saying that Thor Han was right, the Germans were all arriving from inland Antarctica and leaving the continent on boats to South America. They were very secretive and wouldn't talk to anyone. This was really happening… The Dark Fleet was being hammered by the Earth Alliance and the Galactic Federation, on Earth, Mars and in this star system, and the Antarctica exodus was the very proof that all of this was real.

Ref: https://exopolitics.org/is-the-4th-reichs-dark-fleet-abandoning-antarctica/

#4 - 2021 JUL 17 - Thor Han reveals the Jupiter meeting agreements which corroborates with the signing of the Artemis Accords

According to a former professional archeologist and ‘contactee’, Elena Danaan, a similar set of meetings have just concluded near the planet Jupiter to discuss the new order in our solar system that will emerge with the impending military collapse of the Dark Fleet and its Draconian, Orion, Deep State, and corporate allies.

She says the Galactic Federation of Worlds met recently with the representatives of the Earth Alliance and an alliance of secret space programs in a set of 12 meetings to discuss the new order in our solar system. It’s worth pointing out that the existence of a Galactic Federation was recently acknowledged by the founder of Israel's space program, Professor/General Haim Eshed

Elena contacted me on July 17, 2021 with the dramatic news of the meetings that had been completed near Jupiter and the different nations that were involved through their respective space programs. She said the final meeting had concluded only a day earlier with an agreement being reached that would establish a multinational space alliance between the major Earth nations under US leadership.

This is what Elena wrote in her first email:

"Agreements have been passed on Jupiter between the different progressive galactic coalitions and Terran military forces, to share the use and the protection of this star system, regarding to economic and military domains, in preparation for the future. Territories of action have been set. Terran Humans are officially taking ownership of their system. The US was the lead representative in these series of meetings; they were chosen by the GFW because of their abilities, resources, and goals, best able to guarantee a sustainable and glorious future for off-world humankind. Long years of secret collaboration with the nations of Terra have come to completion, but we still need to bring closure to this war for the liberation of this system. Until then, we will need to work hard, and when this day comes, we will all be ready to step into a new era of fraternity and cooperation together."

What corroborates Elena’s remarkable claims here are the recent signings of the Artemis Accords among countries with functioning space programs. These are bilateral accords negotiated between space faring nations and the United States that were first signed on October 13, 2020, between the US and seven nations: Australia, Canada, Italy, Japan, Luxembourg, United Arab Emirates, and the United Kingdom.

In a second email Elena wrote:

"The GFW only wants to work with a unified global civilization, not with a clutter of different rival space forces playing power games. Thor Han said that there are actually fourteen countries involved in space programs, who were represented there, but a top six have programs recognized by the GFW as most progressive and durable, and fit to join forces with them. The eight others were just in for commercial reasons benefiting the many. Thor Han was also speaking about a “horizontal” coalition of these top six, coming up as a unified space department. Would we be witnessing, as you said it Michael, the birth of Starfleet?"

What corroborates Elena’s information here is that no other space faring nation has joined China and Russia in their proposed International Lunar Research Station initiative launched with their bilateral agreement reached in

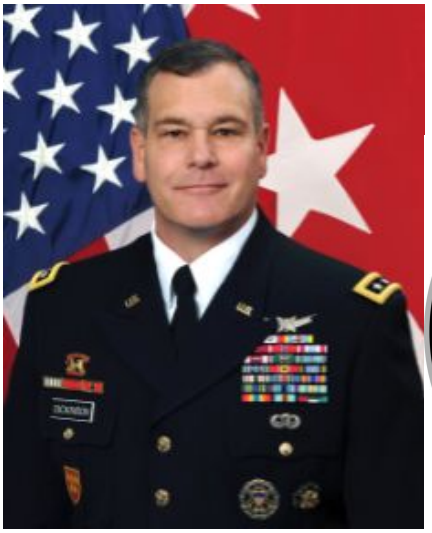
June 2021. Only the US has succeeded in creating a multinational space coalition through the Artemis Accords, which Russia declined to join since it was “too US-centric,” and China was excluded from joining due to its continued theft of intellectual property and industrial espionage.

According to earlier information released by Elena, these Dark Fleet-Draco-Orion bases have come under attack and are at various points of liberation. This is consistent with claims by a number of insiders that the Dark Fleet and their corporate allies have been cut off from their interstellar partners, which has led to dwindling resources and significant defections. It also matches with data released by remote viewers associated with the Farsight Institute discussing the current exopolitical situation.

Elena's latest information is supported by much circumstantial evidence, what other secret space program insiders have been recently claiming, and remote viewing data. While this doesn't confirm her remarkable claims, it does make them worth investigating further for those wanting to know what is currently happening in deep space right now.

Ref: https://exopolitics.org/secret-meetings-near-jupiter-decide-the-future-of-our-solar-system/

Further confirmation of the Jupiter agreements was revealed later on Aug 2021. US Space Command leader, General James Dickinson confirmed that over 100 agreements have been reached with different countries, agencies, and corporations for space related activities. Only a month earlier, General Dickinson allegedly attended a series of meetings above Jupiter where comprehensive agreements were reached between the Galactic Federation of Worlds and 14 space faring nations, including CEOs from major aerospace companies.



US Space Command leader, General James Dickinson

Ref: https://exopolitics.org/did-us-space-command-leader-just-confirm-jupiter-agreements/

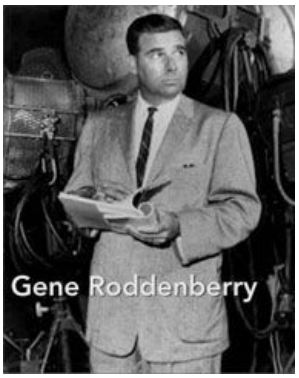
#5 - 2021 AUG 30 - Thor Han reveals the full text of the Prime directive matching what was given to Gene Roddenberry

Dr Michael Salla discovers a Star Trek book unbeknownst to Elena titled "The Federation" where the text given to Gene Roddenberry matches almost exactly, as the Galactic Federation of Worlds was providing the information for the Star Trek series.

Dr. Michael Salla's interview with Elena Danaan, a former professional French archeologist, discusses a recent communication she received that details the Prime Directive of the Galactic Federation of Worlds (GFW). Elena is publicly releasing the ten articles making up the Prime Directive, along with commentary by her primary extraterrestrial contact, Thor Han Eredyon.

The contents of the Prime Directive are known to participants in secret meetings and agreements that have occurred between the Galactic Federation and national space program leaders and major aerospace corporations. Its contents have not been previously publicly released.

The "Prime Directive" was popularized in the science fiction series of Star Trek, which had it's origins with the Office of Naval Intelligence providing the script for Gene Roddenberry in order to "seed" these concepts into the public's mind. This explains why there has been minimal contact with off planet cultures with this guiding directive not wanting to interfere with the evolutionary process of evolving civilizations. Considering that Stage 3 civilizations have interfered with Earth's Stage 2 civilization, this allows the Galactic Federation of Worlds to intervene against the interfering Stage 3 civilization. In example how the Orion (Nebu) group has abducted millions of people of Earth against their consent.



Galactic Federation of Worlds

Classification Scale:

Stage 1: "Developing" life forms non-organized in a structured society.

Stage 2: "Primary" life forms organized in a structured society having developed spiritual concepts.

Stage 3: "Interstellar" culture having reached interstellar capacity and made contact by its own process with another galactic civilization.

Stage 4: "High" culture having reached 6th Density level and beyond.

THE PRIME DIRECTIVE

Galactic Federation of Worlds

I

The Prime Directive is to serve as a moral, ethical guide and legal template.

II

The Prime Directive is applicable to all cultures in any world that have not yet achieved interstellar travel capacity and have not established an organized continuous relationship with an evolved external interstellar culture.

III

Nothing within these articles shall authorize the Galactic Federation of worlds personnel to intervene in matters which are essentially of the domestic, local or private jurisdiction of any planetary system, or shall require the members to submit such matters to settlement under any articles of the Galactic Federation of Worlds.

IV

As the right of each sentient species to live following the greater universal law of Free Will, in accordance with its natural and biological cultural evolution is considered sacred, no members or personnel of the Galactic Federation of Worlds may interfere with the normal, autonomous and healthy development of native life, society and culture. Such interference includes introducing superior knowledge, strength or technology, to a world whose members and society are incapable of handling such advantages wisely, judged on their present level of spiritual, moral and technological evolution.

V

The Galactic Federation of Worlds cannot expose an evolving species to technology that the species has not yet discovered or is currently capable of developing and using.

VI

Sharing and seeding of technology above the lesser evolved race evolutionary capability of understanding is prohibited or taken to the necessary minimum.

VII

It is forbidden to interact or communicate with any native resident of a lesser evolved planet or culture using any device, appliance, machine, tool, weapon, or invention representing an improvement upon the science and technology already in existence upon said planet.

VIII

Spiritual and moral knowledge should also be restricted to a bare and necessary minimum only using communication methods and devices at the current level of understanding of the lesser evolved race.

IX

It is not permitted to make contact with or interfere with lesser evolved races unless they are threatened by an outside source. In that case it is the moral obligation of the personnel of the Galactic Federation of Worlds to evaluate the situation to determine a suitable course of action.

The free will of a Stage 1 or Stage 2 planetary culture works in accordance with the greater universal law of evolution, when not coerced or influenced by an outside source working for their own benefit to the detriment of the

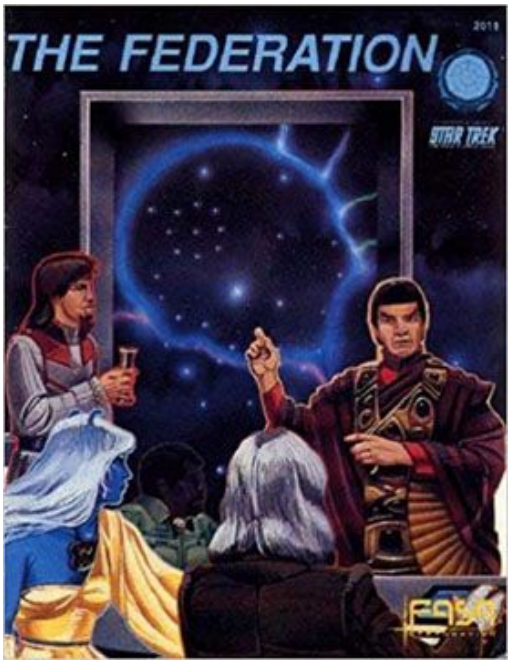
said lesser evolved culture. Manipulation of free will upon a lesser evolved culture is nullified regarding the greater Universal Law of Evolution. It is in this case considered by The Prime Directive as interference, and the Galactic Federation of Worlds reserves the right to intervene.

X

Federation personnel may not violate this Prime Directive, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation.

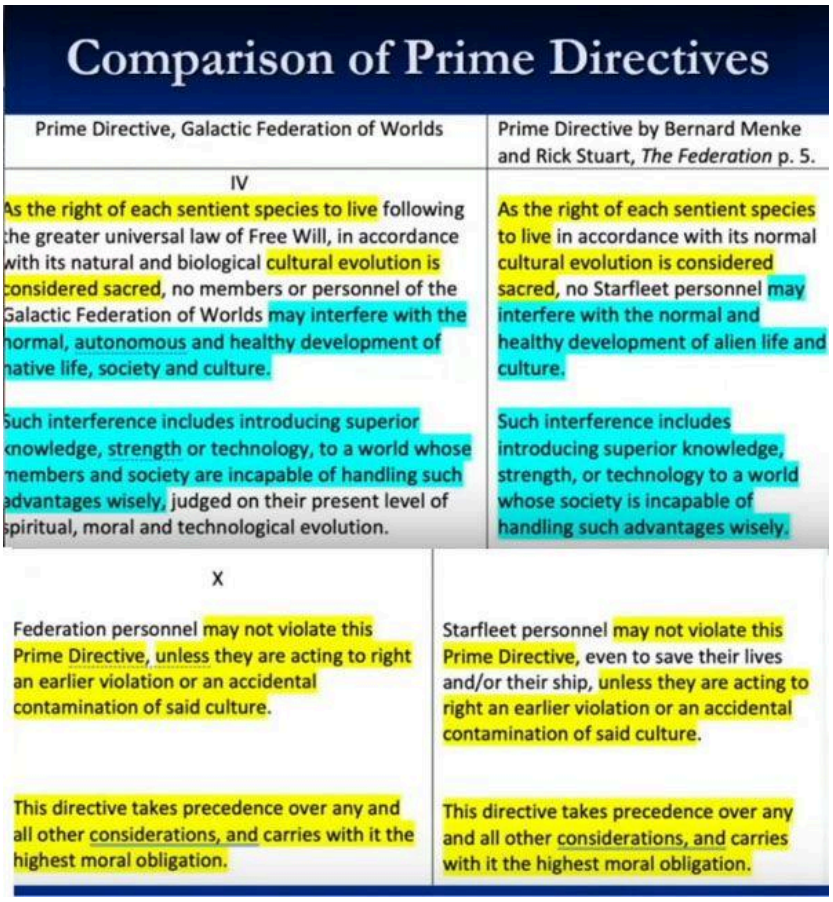
PDF version

Comparison of the "The Prime Directive" that was given through the Office of Naval Intelligence to Gene Roddenberry



"The Federation" Fictional Book published 1987 by Bernard Menke and Rick Stuart
Starfleet General order 1 - p.5

Dr. Michael Salla compares the Prime Directives of the Galactic Federation of Worlds and the Star Trek series. His comparison of the two Prime Directives suggests they came from the same source. The conclusion is that Gene Roddenberry and others associated with the Star Trek series had been given the actual text of the real Prime Directive - stored as a holographic document by the Galactic Federation, and released it in fictionalized form.



Comparison of Prime Directives

Prime Directive, Galactic Federation of Worlds	Prime Directive by Bernard Menke and Rick Stuart, *The Federation* p. 5.
IV As the right of each sentient species to live following the greater universal law of Free Will, in accordance with its natural and biological cultural evolution is considered sacred, no members or personnel of the Galactic Federation of Worlds may interfere with the normal, autonomous and healthy development of native life, society and culture. Such interference includes introducing superior knowledge, strength or technology, to a world whose members and society are incapable of handling such advantages wisely, judged on their present level of spiritual, moral and technological evolution.	As the right of each sentient species to live in accordance with its normal cultural evolution is considered sacred, no Starfleet personnel may interfere with the normal and healthy development of alien life and culture. Such interference includes introducing superior knowledge, strength, or technology to a world whose society is incapable of handling such advantages wisely.
X Federation personnel may not violate this Prime Directive, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation.	Starfleet personnel may not violate this Prime Directive, even to save their lives and/or their ship, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation.

From Dr. Michael Salla's presentation comparing the directives

This is quite a remarkable correlation considering Elena Danaan never had exposure to this fiction book. Considering the history of how our stage of civilization was intervened in the 1930s by the Draco/Orion (Nebu) alliance which gave Nazi Germany advanced technology. Section X of the Prime Directive states...

"Federation personnel may not violate this Prime Directive, unless they are acting to right an earlier violation or an accidental contamination of said culture. This directive takes precedence over any and all other considerations, and carries with it the highest moral obligation."

This explains why the Galactic Federation of Worlds (GFW) had the right to intervene to right this violation by the Draco/Orion (Nebu) alliance by assisting the US Navy to develop it's secret space program "Solar Warden", whereas the definition of warden is "one that is responsible for the supervision of a particular place or thing or for ensuring that regulations associated with it are obeyed." so it appears it is in part to uphold the Prime Directive in our Solar system.

Understanding the Prime Directive that has been put in place explains in part the question in many peoples minds why they don't just land in mass and interact with our civilization in a large scale contact. This may explain the first contact meeting with President Eisenhower with representatives of the GFW in 1954 which warned of the Draco/Orion (Nebu) alliance to not trust them, which later shortly after the MJ-12 group circumvented Eisenhower's wish to accept what the GFW was offering people of earth, instead MJ-12 entered into a secret agreement called the Greada Treaty with the Draco/Orion alliance, which was a technology transfer program in exchange for giving them permission to abduct humans and to have secret underground base operations on Earth. Even though permission was given

by our government leaders, this treaty was in violation of the Prime Directive and allowed the GFW to step in and counter the Draco/Orion (Nebu) alliance's actions.

Ref: https://exopolitics.org/did-the-galactic-federation-just-release-its-prime-directive/

#6 - 2021 OCT 4 - Thor Han reveals the meetings on Ganymede which corroborates with other witness testimonies

Dr Michael Salla's witness JP later reports his mission to go to Ganymede as support personnel and Alex Collier both corroborating Thor Han's information

Ganymede one of the moons of Jupiter

My first source, JP, who currently serves with the US Army, revealed to me that an international space coalition has been secretly sending personnel and ships to Jupiter’s moon Ganymede, to meet with a powerful new group of extraterrestrial visitors regarded as friendly.

On September 21, 2021 JP first informed me about a large space convoy leaving the Moon and heading towards Ganymede to meet with an incoming group of friendly extraterrestrials. He told me:

"Also, something good is happening. They’re moving some technology from the moon to Ganymede. Among the soldiers everybody talking. Major space convoy… Sometime this week or next week the convoy leaves. Don’t know the exact hit time. Earth satellite to Jupiter’s satellite."

My second source on what is currently happening on Ganymede is the extraterrestrial contactee Elena Danaan, who has passed on the most recent intel from her Galactic Federation source, Thor Han Eredyon, about the visitors who are establishing an outpost on Ganymede to coordinate with the Earth Alliance until humanity is ready for open contact.

My third source is long-time Andromedan contactee Alex Collier who confirmed that there has been much recent activity on Ganymede, which possesses a number of large extraterrestrial facilities that have been present there for thousands of years.

On October 4, 2021 I asked Elena whether she knew anything about "something big … coming into our solar system", she replied:

"I also heard about another great return, of powerful benevolent forces, from another dimension and realm. A great force that has always tried to free Humanity of Earth from slavery. This also is back. We are up for a great grand finale."

This takes me to Elena's latest intel from Thor Han received on October 10, 2021 which provides much more information about this incoming benevolent force, and the connection with Ganymede:

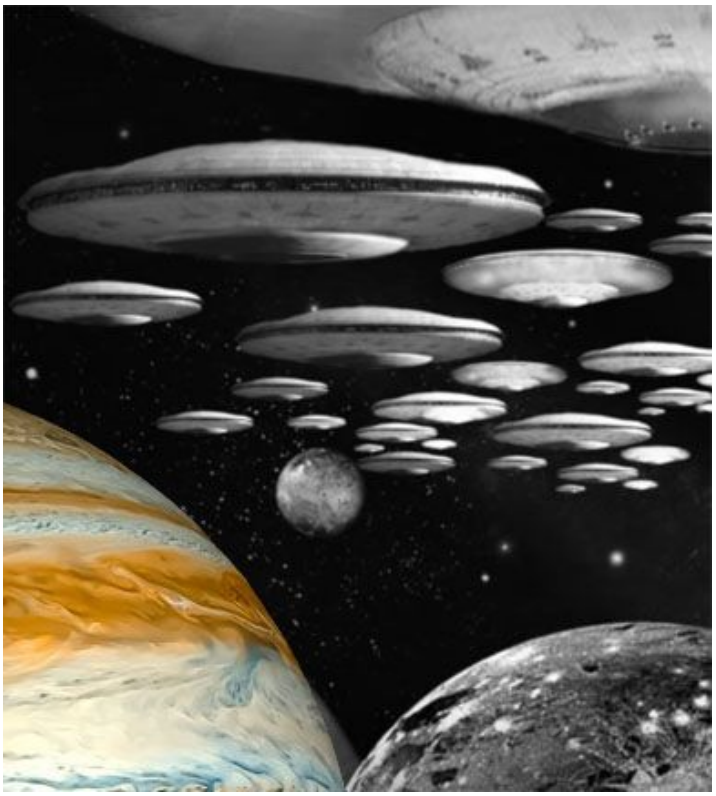
Thor Han: *"The fleet from the Intergalactic Confederation has arrived in this star system. Their ships will be stationed around Jupiter for a while, until further notice to move nearer to Earth's orbit. The personnel and logistics are welcomed on the Ashtar outpost.* ***High officials are staying at the Council of Five facility on the moon Ganymede.*** *They come to evaluate the result of our common work regarding to the dismantlement of the Dark Alliance, and collaborate together with the Galactic Federation of Worlds a course of action for the next step."*

Thor Han's information here is stunning confirmation for what JP had earlier revealed to me back in September. A multinational (Earth) alliance headed by US Space Command is sending a large convoy to Ganymede to meet with and collaborate with an incoming group of extraterrestrial visitors.

Ref: https://exopolitics.org/earth-alliance-mission-to-ganymede-to-greet-et-visitors-inaugurate-a-star-trek-future/

#7 - 2022 JAN 4 - Thor Han reveals arrival of Intergalactic Confederation is activating space arks in our solar system

On January 4, 2022, I received an important update about ancient space arks being discovered on the Moon, Mars, Antarctica, and other locations in our solar system. According to Thor Han Eredyon, a Galactic Federation pilot, whose messages are relayed through a former professional French archeologist, Elena Danaan, these huge space arks are activating due to the recent arrival of a large fleet of spacecraft belonging to an Intergalactic Confederation—parked in the vicinity of Jupiter and its moon, Ganymede.



Intergalactic Confederation fleet stationed near Jupiter

Thor Han's update is startling corroboration for information recently released by my US Army insider, JP, who visited one of these activated space arks on the Moon in joint secret missions being conducted by the US, China and other members of an "Earth Alliance" led by US Space Command.

Ref: https://exopolitics.org/ancient-space-arks-activate/

#8 - 2022 JAN 4 - Thor Han reveals that there is a large Ark in the Atlantic Ocean a week before witness JP goes on a mission

there

Dr Salla's witness JP later reports his mission to go down and into the Atlantic Ark on January 10, 2022. This mission to one of the ancient extraterrestrial arks being found under the Atlantic Ocean is that **it matches with information released earlier by Thor Han Eredyon through Elena Danaan on January 4.** When asked by Elena where the ancient arks could be found on Earth,

Thor Han replied:

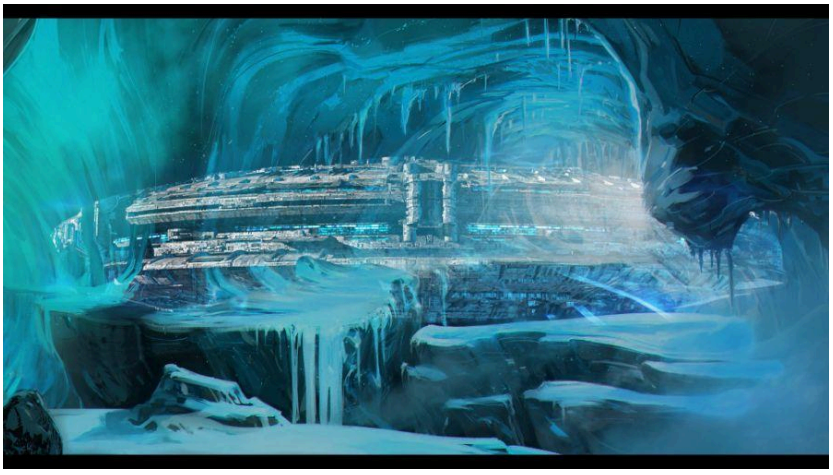
"South-America, Central Europe, North-West of Russia… ***One under the waters of the Atlantic Ocean. This one is the biggest.*** *There are others as well but I won't tell any precise coordinates, it is not my responsibility but that of the Earth Alliance."*

Less than a week before JP's mission, Thor Han had already independently confirmed that a space ark was under the Atlantic and it was the largest of all those hidden throughout our planet. I found this to be stunning corroboration since JP had first told me about a location in the Atlantic to which he was taken around 2014 where a massive circle shaped platform was suspended over the top of something big.

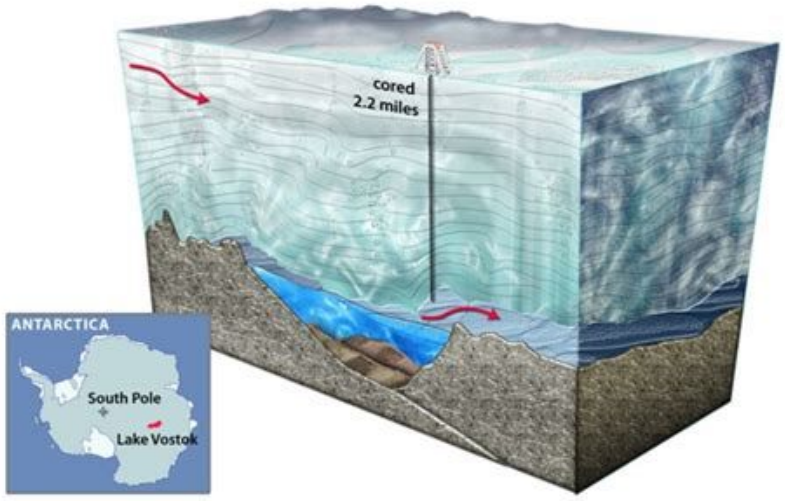
Ref: https://exopolitics.org/giant-et-space-ark-under-atlantic/

#9 - 2022 JAN 21 - Jean Charles Moyen and Elena go with Thor Han to experience the space ark near Lake Vostok, Antarctica

Jean Charles Moyen and Elena Danaan describe trips they both took to a Galactic Federation mothership called the Excelsior, and then to Lake Vostok in Antarctica with Thor Han, where they witnessed a space ark with blue giants sleeping in stasis chambers. Elena describes how she was tasked by the Galactic Federation to witness Jean Charles as he toured the Lake Vostok ark.



The space ark next to Lake Vostok Antarctica which Elena and Jean Charles with Thor Han visited



Deep under 2 miles of ice the space ark is located next to Lake Vostok

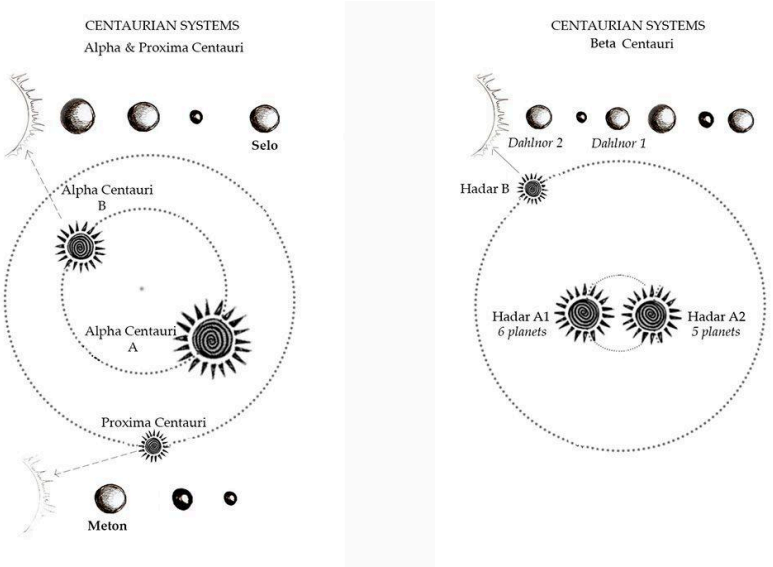
#10 - 2022 FEB 10 - Elena identifies 3 planets in Proxima Centauri system 2 years before verified by NASA

In Elena's 2020 book "A gift from the Stars" where she detailed 110 different extraterrestrial races and the planets they inhabit, she showed in an illustration that the Proxima Centauri system having 3 big inhabited planets (plus a few planetoids).

Two years later in Feb 2022 NASA discovered just as Elena described a third planet in the Proxima Centauri system.

This is an excellent example of Elena's information being substantiated by NASA's scientific announcement confirming that a third planet was discovered around Proxima Centauri, a red dwarf star. Which in her book, A Gift from the Stars, she had stated that there were three inhabited planets orbiting Proxima Centauri, four around Alpha Centauri, and six around Beta Centauri which she illustrated in a diagram (p. 340).



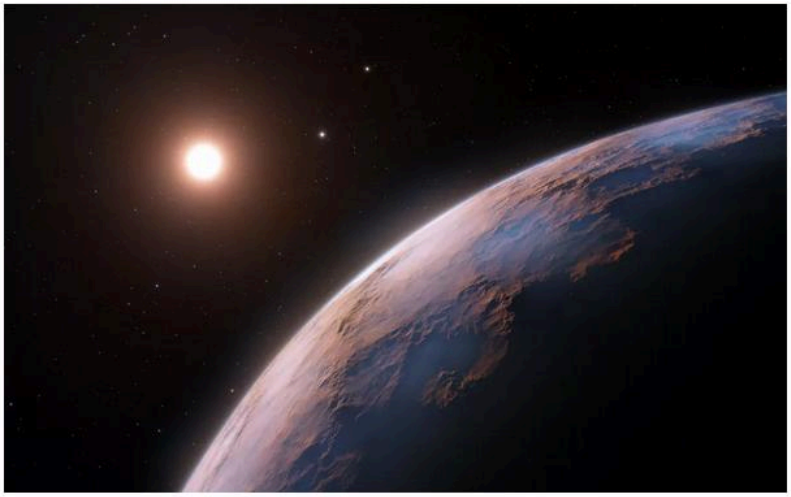
Two years later NASA discovers the 3rd planet around Proxima Centauri just as Elena described

Home > News > Science & Astronomy

Possible 3rd planet spotted around Proxima Centauri, the sun's nearest neighbor star

By Mike Wall published February 10, 2022

The candidate planet Proxima d is estimated to be just 25% as massive as Earth.



Dr Michael Salla stated:
"This kind of scientific corroboration is an important reason why I enjoy working with Elena and believe her information from her Galactic Federation sources is reliable and well worth considering to get the big picture of what is happening on Earth, our solar system, and beyond."

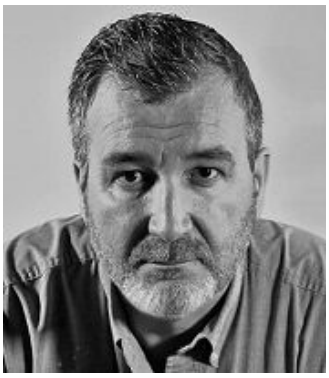
#11 - 2022 MAR 5 - Jean Charles Moyen has meeting with Elena on the mothership Excelsior and describes the exact experience onboard

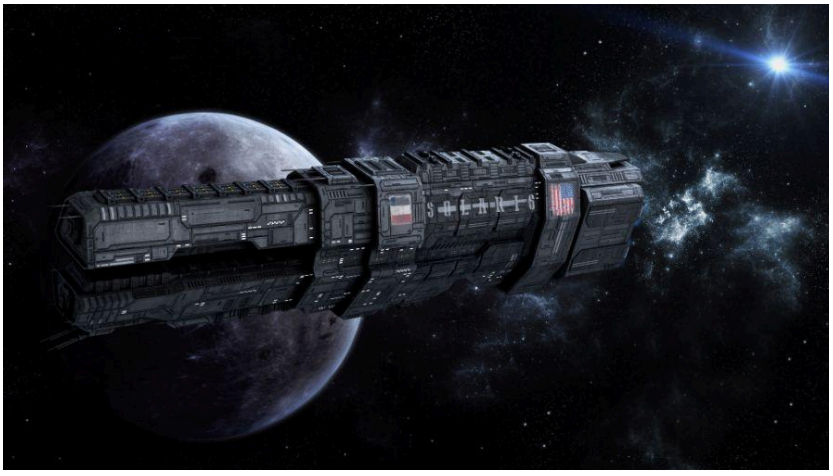
Jean Charles Moyen and Elena Danaan describe trips they both took to a Galactic Federation mothership called the Excelsior



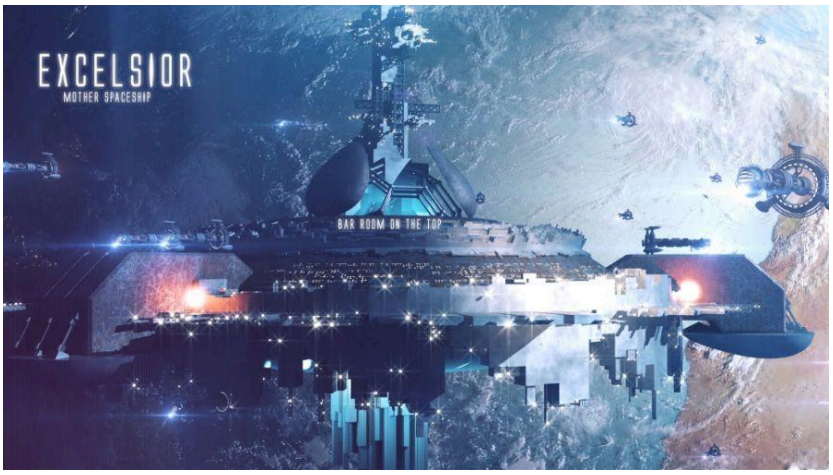
Jean Charles Moyen

Member of the French Secret Space Program
Served aboard the Solaris part of the Solar Warden fleet
Went public Feb 2022

Jean Charles Moyen and David Rousseau both served as children and adults in a joint US French secret space program since 1981/1982. The both completed ’20 and back’ programs where they remember meeting and becoming friends on the Franco-US flagship the Solaris. They both discuss experiences they shared while working in the SSPs. Including their training with Maria Orsic, multinational and extraterrestrial personnel and facilities on the Solaris, and joint missions to Mars. The remarkable thing about these two French SSP witnesses that lends credibility to their testimonies is that before knowing each other on earth, **their separate testimonies have been independently corroborated**. Ref



The Solaris spacecraft part of the Solar Warden fleet which Jean Charles Moyen served on in his tour of duty in space



The Excelsior mothership and battle-station where Thor Han lives and works.

Excerpt from Elena Danaan's book THE SEEDERS: The Return Of The Gods .

"The memory of these events was reconstructed by my testimony and the testimony of Jean-Charles Moyen put together. Jean-Charles is a French super-soldier who was recruited for a "20 and back" program in the Solar Warden Fleet. I met him through Dr. Michael Salla, and we became friends after realizing with stupefaction that the extraterrestrial mothership he was visiting for leisure time, when he was in service, and that he named the "Excelsior", was indeed the same battle-station where Thor Han lives and works. Jean-Charles and I compared identical memories of a particular cafeteria, with extremely detailed description of food replicators, bars with floating androids serving ionized blue drinks, the interior design in the station, teleportation pads etc... "

The complete conversation was recorded on video on Elena Danaan's YouTube channel: https://youtu.be/H2A8aLxYI-M

#12 - 2022 MAR 28 - Thor Han says to watch for activity on Neptune to be revealed, then two weeks later NASA substantiates it

One week later many science publications show a large red abnormality on Neptune

On March 28, Elena Danaan received the following message from Thor Han about changes in our solar system caused by the arrival of the Seeders/Guardians that can be traced back to the interstellar object, Oumuamua in October 2017:

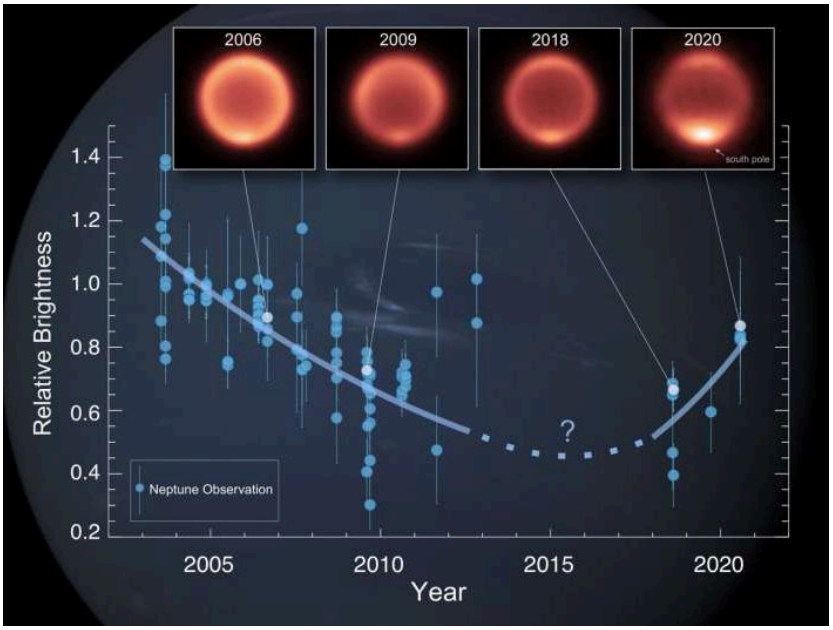
Excerpt from Elena Danaan's book THE SEEDERS: The Return Of The Gods

"The ships are coming, the Guardians are on the outer orbit of Terra, four ships for the moment. They are watching, in time dilation. Suspended in time like the old Oumuamua. It was one of their ships. It has activated. The ones in the ice belt have activated too. And all the others, one by one, on all the planets. ***Neptune is next. You will see, you will hear about Neptune soon.*** *But don't forget to tell them: They are lucky and privileged to see this."*

"Thor Han was clearly implying that there was an Ark on Neptune, that it was activating, and would soon draw public attention. Two weeks later, on April 11th 2022, multiple articles from scientific websites flooded the internet with news of a discovery made about Neptune, that substantiated Thor Han's announcement three weeks before: NASA scientists announced that despite the fact that the planet was in a cooler temperature cycle, its south pole was suddenly and mysteriously warming up dramatically... Using a fleet of ground-based telescopes, including the massive Very Large Telescope in Chile, an international team of astronomers recorded some spectacular temperature changes on the eight planet from the Sun. This was totally unexpected and baffling for the scientific community. Even better: NASA was hinting at the idea to send their next flag ship mission to Neptune. No coincidence there."

Thor Han's message clearly links the sudden heating of Neptune's South Pole to one or more activating space arks

Thor Han’s prediction is quite remarkable given that it preceded the results of the astronomer’s observations published two weeks later in [The Planetary Science Journal.]



On [April 15, 2022 NASA Science Study] finds unexpected temperature changes on Neptune

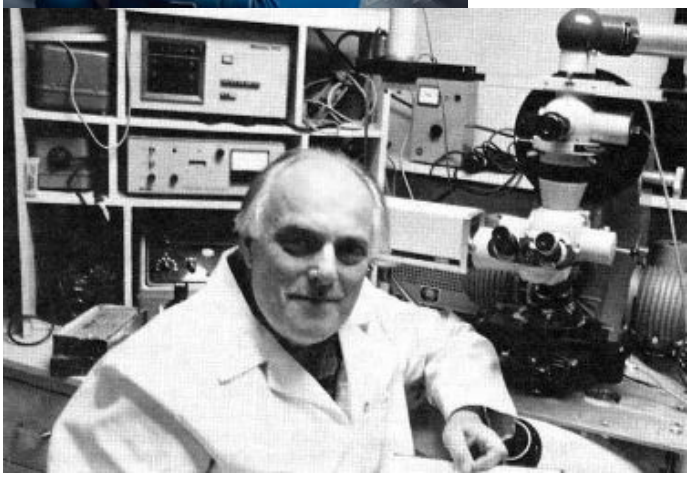
#13 - 2022 APR 22 - Crystal technology information from Jen Han Eredyon corroborating with Dr Marcel Vogel's research

This date marks the start of a question/answer exchange that I have done through Elena, relaying the information from Jen Han Eredyon, who is Thor Han's younger brother. What I have found is that all of the information Jen Han has shared in regards to the science and interfacing of consciousness with quartz crystals to corroborate perfectly with what IBM's head scientist Dr Marcel Vogel was able to quantify and measure in his laboratory.



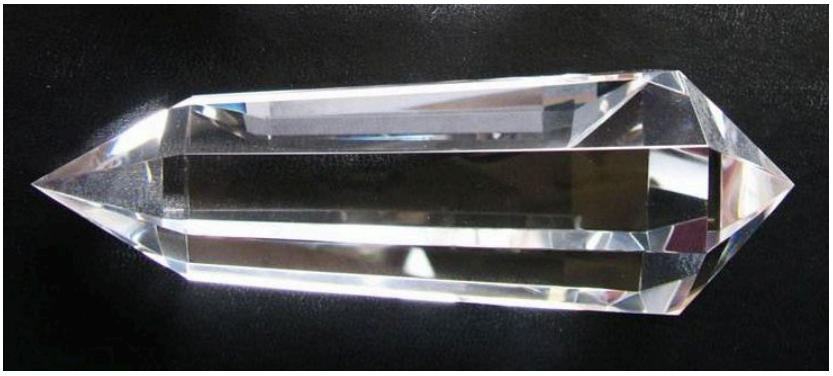
Jen Han Eredyon, a Pleiadian scientist from the planet Erra and Dr Marcel Vogel, a highly respected scientist on planet Terra

Who is Dr Marcel Vogel?

Dr Marcel Vogel was IBM's senior head scientist for over 27 years. He was a prolific inventor with over 140 patents. He created the first magnetic coating

used in computer hard drives. Created the red and blue phosphors for color television. Developed liquid crystal systems used into today's displays, and much more.

He was a pioneer in man/plant communications which led him into the research of the interface of consciousness with quartz crystals and water which he researched extensively for 17 years. After leaving IBM he set up a fully equipped laboratory to measure and quantify the science of crystals and developed a method to amplify and cohere the energies of mind by forming a quartz crystal in a di-pyramidal form known today as a "Vogel Cut" crystal. He trained dozens of medical doctors in using his developed technique utilizing the crystal with breath to alleviate various health issues in the higher energetic fields of the body and had great success. He was no doubt the first scientist of his caliber to pioneer the understanding of the energies of mind connected with the breath, quartz crystals, water and most importantly love. He was also a close friend and research associate who I worked on projects with in the 1980s



A "Vogel Cut" quartz crystal

How all of this came about?

Mar 9, 2022 I joined Elena on a show called "From Past to Future" https://youtu.be/2FEFj2jVOFo I talk about my involvement as a top secret military witness, then Elena asks me about the work I did with Dr Marcel Vogel and crystals

Who is Jen Han Eredyon?

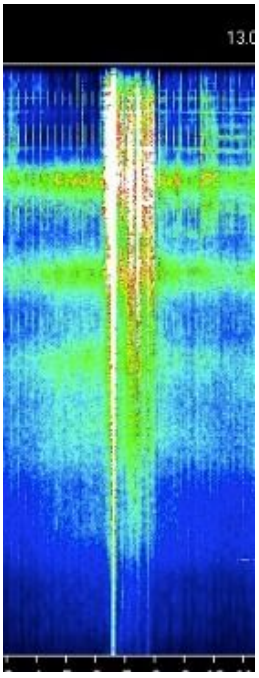
Elena explains how this evolved:

"I have had the pleasure to meet Thor Han Eredyon's brother whose name is Jen Han, he's his younger brother. Thor Han is my contact in Galactic Federation of Worlds and these both persons are from the Pleiades from the planet Erra, it's a planet of the Taigeta system that they call Ashara and Jen Han, Thor Han's younger brother is an incredible person, he lives there still and he is studying how to become a terra former, they don't call it terra former, they call this discipline star making, so he says he's a star maker and I have connected with him last year and when we both, Dan and myself started to think about working together on a project about crystals, I thought about Jen Han I said to Dan, well Jen Han knows a little bit about crystal technology and I had the opportunity to connect with him via Thor Han, so Jen Han is a student, he's in a sort of university in the Pleiades studying terraforming and Dan asked questions, a list of questions that are transmitted

to Jen Han and he replied and our minds were totally amazed, because what Jen Han replied matched in all every point what Dr Marcel Vogel had discovered in his research and both were completing each other."

Apr 22, 2022 The first communications from Jen Han Eredyon via Elena giving answers to my questions are received. This starts an ongoing communications log

Jun 12, 2022 Elena and I found so much that corroborated with the research work of Dr Marcel Vogel, that we decided to create a special show showing how the information about crystals from this Earth scientist and Pleiadian scientist compared. We also decided to put this knowledge into practice with the thousands of show viewers to imprint a vision of a positive timeline into the planetary matrix. According to Jen Hen, this had an effect on the planetary matrix and was measured by a spike on the Schumann resonance.



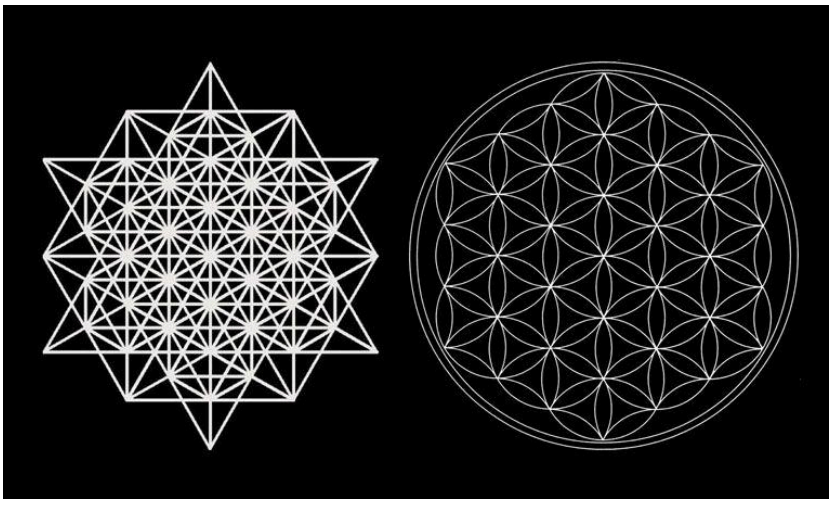
The show was called "CREATING A POSITIVE TIMELINE IN THE PLANETARY MATRIX USING A CRYSTAL" with Elena Danaan & Dan Willis https://youtu.be/tl7yLhMzwlM

Dan: Do you think it is feasible that this spike was a result of this collective group effort?

Jen Han: Of course it had an effect. There is a ratio of population that needs to be gathered to produce a visible disturbance, and you did it that day. The brainwaves emitted by all living creatures on this planet are in inter-resonance with the ionosphere shell. If this ionosphere resonance shall change, all life on this planet would be affected. This is a topic I affectionate particularly because it is part of my work. Of course this process occurs naturally as well in the universe, as a natural law. When we make worlds suitable for receiving conscious life, we construct a series of layers around the planet, that we embed in its grid. Once it is integrated, it cannot go. All is held together with frequencies. All is inter- resonant. One tingle on the web ripples to the other side at a particle level. One affects the other: when your consciousness evolves, the frequency of your planet raises. That is how the inhabitants of a world can shift the density of their planet by themselves, by the simple power of their minds.

Detailed notes of the show https://marcelvogel.org/crystaltimeline.htm

Since April 2022, Elena and I have learned a lot about the science of crystals from Jen Han, who has taken the pioneering work of Dr Marcel Vogel to another level of understanding. Jen Han corroborated much of Marcel's work having to do with the nature and qualities of quartz, water and love, and how these are all based on a similar core fractal holographic formula that allows them to bridge dimensions. Also, how the energies of mind project geometric patterns to affect the tetrahedral fractal geometry of the holographic matrix of reality. How the pulsed breath as Marcel discovered, was the most effective method of imprinting into the crystal, which he was able to measure in his laboratory. What Marcel was not aware of, is the termination angles he created based on a vision he received in a dream of what is called a "Vogel cut" crystal, allows the formation of a phase-conjugation node within the crystal. This node when piezoelectrically stimulated, can open up a singularity vortex that can allow consciousness to imprint into the hologram of the planetary matrix of the planet to allow it to morph and change reality and so much more! There is much yet we have to learn. This has been an incredible opportunity to learn from a scientist from another star system culture that is several hundreds of years ahead of us in scientific understanding. These communications exchanges are currently ongoing.



The tetrahedral fractal geometry of the holographic matrix of reality is the secret of the universe

Jen Han Eredyon Notes: https://marcelvogel.org/jenhannotes.htm

#14 - 2022 APR 27 - Thor Han reports a severe quake on Mars and one week later NASA reports the largest quake ever detected.

On Apr 27, 2022 Thor Han on Mars communicated to Elena "that there had been a severe Earthquake due to the terraforming operations that have started."

On May 4th, 2022 one week later NASA reports the largest quake on Mars ever detected in our solar system

In an email Elena Danaan sent to Dr. Michael Salla dated April 29th, 2022 sent two days after Thor Han communicated to her on April 27th 2022, where in the below email Thor Han states **"that there had been a severe Earthquake due to the terraforming operations that have started."**

------- Original Message -------
On Friday, April 29th, 2022 at 2:09 AM, ElenaDanaan wrote:

Aloha,

Just to keep you updated about Thor Han's activities: he is on a temporary mission at the moment: in charge of the security of the new colonists from Alpha Centauri, so he checks on Mars nearly every day. I get to see through his eyes sometimes, and yesterday, he was visiting the station Aries Prime! So I got to see a bit of the inside. He was in the maintenance area, which wasn't very exciting: an immense, immense... hangar with all sorts of machines. Aries Prime was built by Earthlings with the help of Ciakahrrs, so it is not the highest tech architecture. The station seems huge. Thor Han was discussing with two Martian resident engineers, wearing red and black uniforms. One was Earthling, the other extraterrestrial, with dark grey eyes, pale skin and elongated skull. Then they walked down a metallic staircase that was very steep. I ask Thor Han telepathically the reason for his presence there, as it had nothing to do with the A. Centaurian colony, and he replied that there had been a severe Earthquake due to the terraforming operations that have started. So Aries Prime got slightly damaged but not enough to worry.
Oh and he said that the name is going to be changed. When I asked who will decide for it, he replied: "The true Martians, it is theirs now." He then explained that this base is now a shared base with Martian Reptilians and local Earth military. Most of the personnel and residents who wished to stay, did stay. Thor Han added that Aries Prime was going to be seen in the near future as a memorial place. Although, it will still be used and very active, due to its amazing underground infrastructure.

Here was a little Martian update, just to keep up with Thor Han's adventures !

bigh hug!

May love guide our actions - fear is not part of our world.

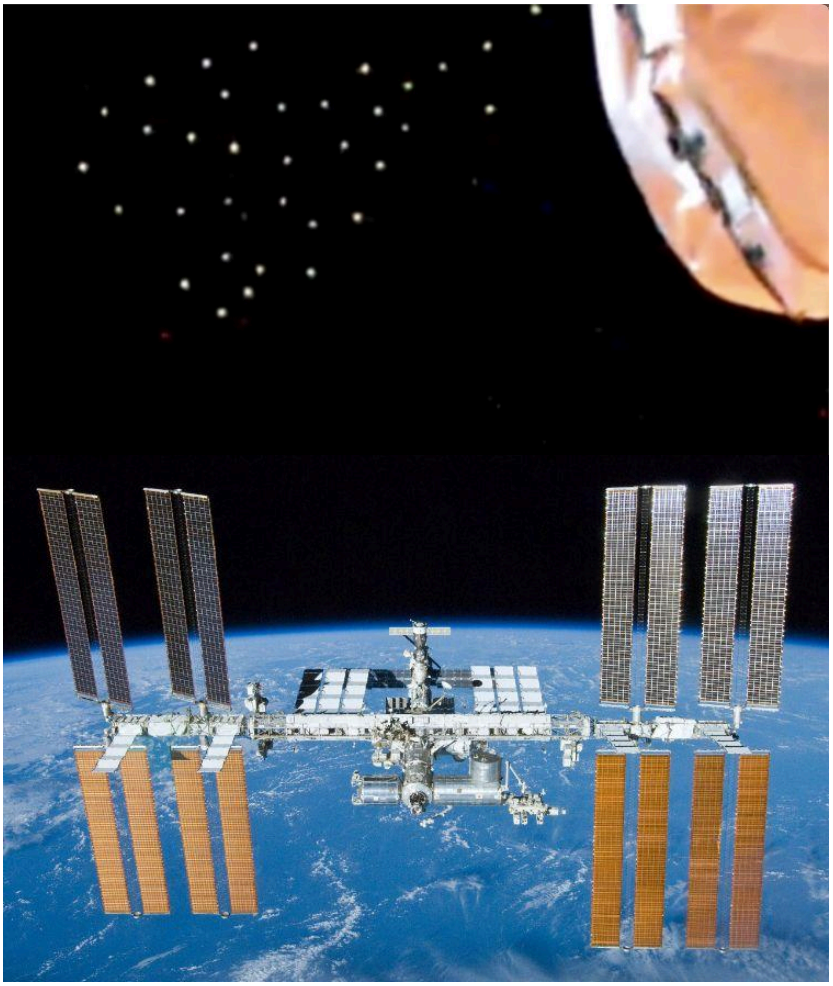
#15 - 2022 MAY 6 - Thor Han reveals Intergalactic Confederation fleet near Earth's orbit on ISS camera feed as part of a disclosure plan

It was indeed revealed by Elena back on October 10, 2021, that spacecraft belonging to the Intergalactic Confederation would soon start moving towards Earth’s orbit. She quoted Thor Han who said:

"The fleet from the Intergalactic Confederation has arrived in this star system. Their ships will be stationed around Jupiter for a while, until further notice to move nearer to Earth’s orbit."

The International Space Station (ISS) camera feed shows dozens of space craft passing by its camera view on May 6, showing a formation of more than 30 UFOs captured by one of the live cameras of the International Space Station.

The ISS live camera footage appears to corroborate that spacecraft belonging either to the Intergalactic Confederation or the Galactic Federation of Worlds have moved into Earth’s orbit and have begun revealing themselves.



According to information received by Elena Danaan, a former professional French archeologist, the UFOs belong to cooperating extraterrestrial organizations that are part of an officially sanctioned disclosure plan being conducted with an Earth Alliance.

I asked Elena Danaan if her primary Galactic Federation of Worlds contact, Thor Han Eredyon, knew anything about the UFO formation. This was her answer:

Yes Michael, **this is part of the disclosure plan with the GFW**. Thor Han confirms it is one of their fleets, performing this in collaboration with the ISS. He asks to pay attention to the pattern. Remember, as I told you a few months ago, consequent to the arrival of the Intergalactic Confederation near Jupiter, it was decided that a disclosure plan would be put into action: the Earth Alliance in charge of disclosing documents, and the GFW & IC showing their ships increasingly to get civilians progressively used to the ET presence without causing chaos. He also says that the enemy will try everything they can to discredit this plan of action but will not manage to stop it.

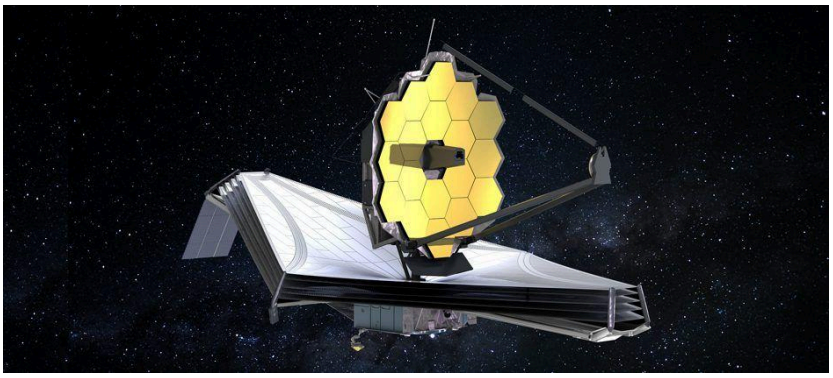
Inbäddad YouTube-video på originalsidan:
https://www.youtube.com/embed/Efr1ZYyheeg

May 2022 - Elena relayed more details from Thor Han about the disclosure plan currently underway:

Thor Han adds that the Earth Alliance will soon disclose information about TR-3b and retro-engineered technology. He adds that they will present it first as “defense secret programs” developed to protect the US from other nations’ attacks. The off-world programs will be revealed in a second part, later, at an unknown date, depending on when this first information will be “digested” by civilians.

Ref: https://exopolitics.org/did-iss-live-camera-reveal-et-space-fleet/

#16 - 2022 JUL 12 - A huge fleet of the Intergalactic Confederation ships parked behind Jupiter being spotted on James Webb Space Telescope?



James Webb Space Telescope (JWST)

On July 12, NASA held an international live stream releasing the first official images from the James Webb Space Telescope showing a noticeable dark field just above the gas giant's atmosphere. Was it a shadow, as NASA appeared to claim, or something entirely different – part of a newly arrived extraterrestrial space fleet secretly parked around Jupiter as Elena has disclosed?

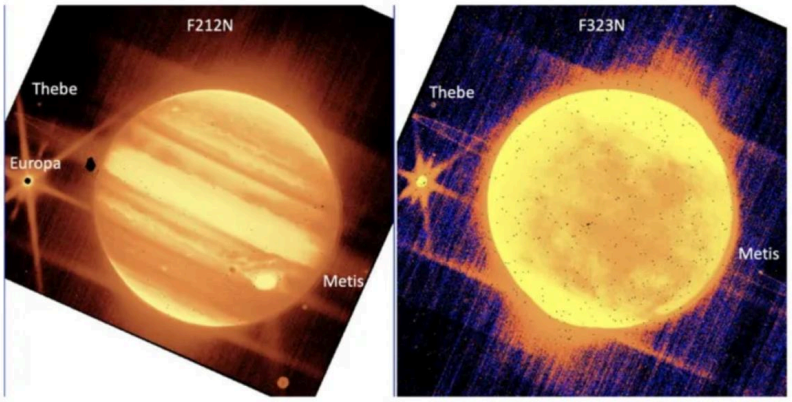


Figure 1: NIRCam narrow-band imaging of Jupiter, moons, and ring. *PID 1022 demonstrated that JWST can track moving targets even when there is scattered light from a bright Jovian planet. At left is a NIRCam short-wavelength image in filter F212N (2.12 μm); at right is a NIRCam long-wavelength image in filter F323N (3.23 μm). The exposure time was 75 s. The Jovian moons Europa, Thebe, and Metis are labeled. The shadow of Europa is also visible, just to the left of the Great Red Spot. The stretch is fairly harsh to bring out the faint moons as well as Jupiter's ring.*

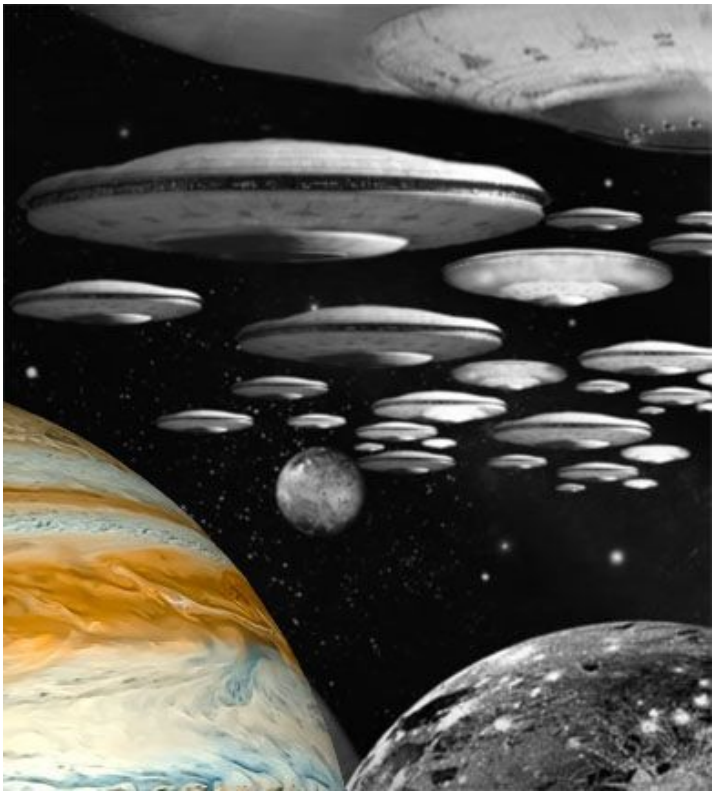
I asked Elena Danaan and Jean Charles Moyen, two contactees with different groups of extraterrestrials, whether any of their sources could explain the dark area. Danaan replied first that Oona, a representative of the Intergalactic Confederation, had a message to share. She publicly released Oona's message in a July 13 live stream on YouTube**.** Here's the complete message of what Oona had to say about the mysterious dark area, along with information about newly arrived space fleets that had parked in the vicinity of Jupiter.

"Salutations to who will read this communication I am transmitting now. Here first Altean emissary Oona speaking on behalf of the Intergalactic Confederation, Council of the Twenty-Four.
There are one hundred and thirty-eight motherships part of the Nataru Alliance in your star system named Sol, with their fleets. This number represents several thousands of crafts.
Five hundred and fifty vessels of the Intergalactic Confederation have entered your star system and are stationed in orbit of your planet named Jupiter, and four are at the present moment in orbit of your planet Terra.

The recently disclosed image of your planet Jupiter displays the cloud of orbital rocks, plus the defense grid of the ships from the Ashtar outpost, plus some of our motherships. The majority of our fleet is behind the planet Jupiter, hidden from your sight.

The disclosure of this image is not an error but a move from the Terran Alliance in charge of the program. Terran instances may name our ships "cold spots", there is truth. More visuals to come. The plan is on schedule. One step at a time. We are holding your hand and you must not look back. Instead, look up. In the greater design of the universe, you are already on the other side of the bridge."



Along with Elena Danaan and JP, other contactees have described being told by their extraterrestrial contacts that newly arrived space fleets have parked in the vicinity of Jupiter. These include Alex Collier, James Gilliland, Jean Charles Moyen, and David Rousseau, all of whom confirmed in interviews that large numbers of extraterrestrial spacecraft had recently arrived.

Ref: https://exopolitics.org/webb-image-of-jupiter-reveal-giant-et-motherships/

Then on July 27, 2022, the James Webb Space Telescope released an image of Jupiter's Great Red Spot using one of its infrared cameras. The image contains a cylindrical-shaped object floating high above Jupiter's atmosphere that appears to be more than a thousand miles long. The image corroborates claims of giant spacecraft recently arriving in our solar system and parking in the vicinity of Jupiter.

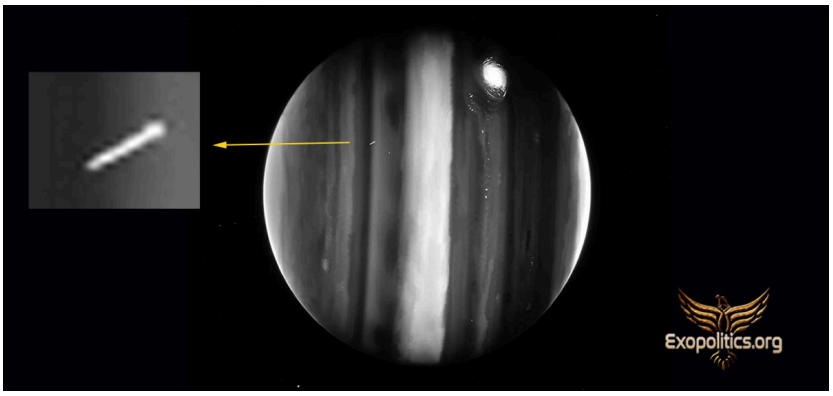


Image from Exopolitics.org

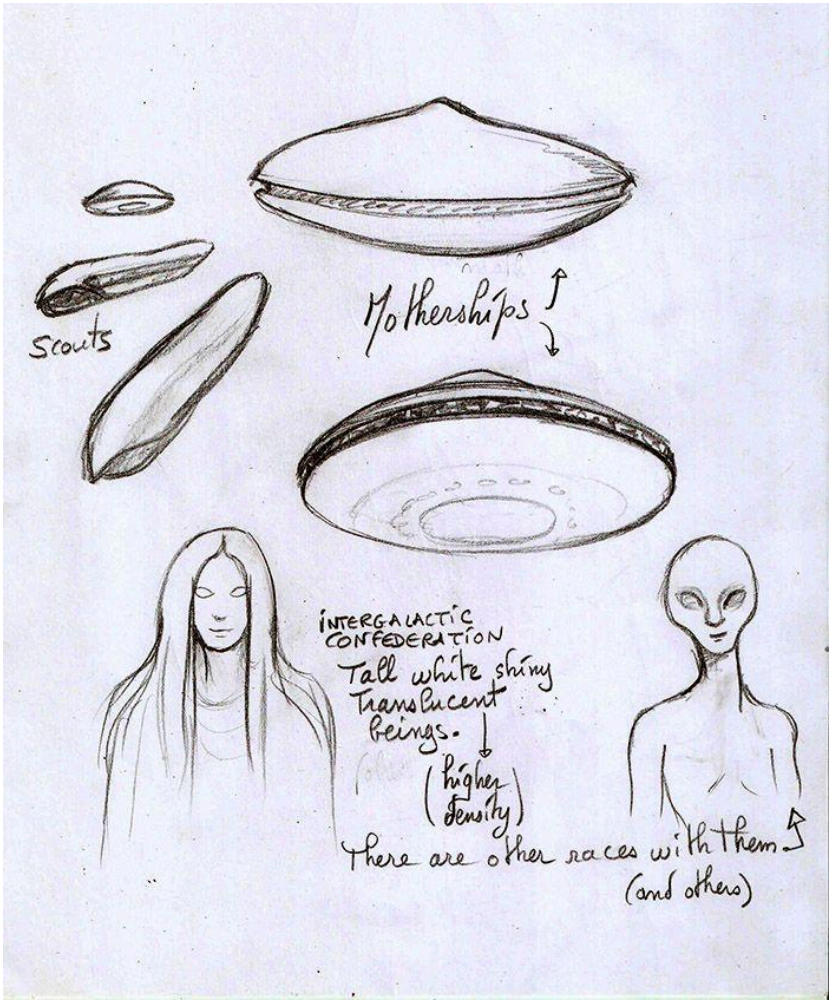
The Webb image and JP's data about Jupiter corroborates information previously released by Elena Danaan concerning the composition of the extraterrestrial fleets she described as belonging to the Seeder races (aka Intergalactic Confederation). She provided an illustration of the different craft and beings that belonged to the Seeder fleets, one of which had a cylindrical design.



Drawing of Intergalactic Confederation Fleet ships stationed near Jupiter courtesy of Elena Danaan Ref

#17 - 2022 OCT 20 - Starmaker designator symbol that Tony Rodrigues saw corroborated with Elena's description of Jen Han Eredyon's starmaker uniform patch

At the 2022 GSIC conference Tony Rodrigues was talking to Elena Danaan about his upcoming new book and the symbols he saw. He didn't tell Elena the book was about starmaking (terraforming). As Tony started to describe the symbol to Elena with a drawing in his spiral notebook shown below in the top image, Elena says that looks like the terraforming (starmaking) designator patch on Jen Han Eredyon's uniform who is a starmaker. Elena then draws to two lower images in Tony's spiral notebook. This was a corroborating surprise to Tony, as he hadn't ever told Elena his book was about terraforming (starmaking). Note that the starmaker designator changes as you reach different levels. The two halves are further apart when you start and come closer together as you reach a higher level in starmaking. Elena promised not to mention this until after his book Project Starmaker was published on May 14, 2023. Elena interviewed Tony discussing this corroboration in this video posted on Aug 21, 2023.

#19 - 2023 JAN 1 - High Commander Ardaana says 2023 will be the year of rediscovery and the opening of the pyramids

In Elena Danaan's New Year's message she stated:

High Commander Ardaana

High Commander Ardaana from the Excelsior: the Earth Alliance, she says, has taken control behind the scenes, military working but taking over all institutions replacing key personnel. She cannot disclose more for tactical reasons as we could understand. The dark works at division. Do not fear authority anymore, authority must only exist as a guiding line through times of Chaos, suggesting and never imposing. This Authority is more like a guidance. An authority that asks you to sacrifice your daily most simple little freedoms for the good of the state, a society, hides non-beneficial agendas for the populations. Then she says this: we are here, even if you do not see us. We have always been here. When you do not understand why we are not as visible as you would like to, remember that we are very active behind the scenes, working very closely with your good leaders and our common military programs, on planet and off planet. This year (2023) more scientific reveals will be released to the population of Terra.

Members of the Galactic Federation of Worlds, she says, such as the Ummite, the Meton and the Selo, have been very active to relentlessly share technologies with many contactees. These people are now going to speak, for they will now be protected by new laws. And she says: 2023 will be the year of rediscovery, rediscovery of your own sovereignty, of your human cognitive capacities, rediscovery or released Technologies, a rediscovery of an ancient Past coming to the surface notably from Islands in your oceans. **She ends by saying: open the pyramids, so rush to the pyramids, focus on the pyramids, this year open the pyramids.** Ref

Archaeologists discover secret chamber inside Great Pyramid of Giza

By Jack Hobbs March 2, 2023 | 9:49am | Updated

#20 - 2023 JAN 7- Thor Han delivers the "Disclosure Plan" at the Raven Rock Mountain Complex to a man Elena identified as General Glen VanHerck

Elena describes on January 7, 2023 a meeting that Thor Han Eredyon had at a secret underground military facility in the Blue Ridge Mountains called the Raven Rock Mountain Complex to discuss an extraterrestrial disclosure plan developed by an Earth Alliance of military leaders and the Galactic Federation of Worlds which she witnessed through the eyes of Thor Han as he gave an oblong storage device to a general of the Earth Alliance. This device contained directives from the Galactic Federation of Worlds regarding disclosure with a lot of information in it and directives.

Dr Michael Salla sent Elena Danaan a list of 44 current active-duty four-star officers in the U.S. military and out of all of these she identified General Glen VanHerck as most resembling the officer that Thor Han gave his directives to. VanHerck was at that time the joint commander of the United States Northern Command (NorthCom) and the North American Aerospace Defense Command (NORAD) both of which are headquartered at Peterson Space Force Base in Colorado Springs, Colorado. General VanHerck was appointed to those positions and promoted to four-star rank on August 20, 2020, during the Trump administration.

A joint disclosure initiative is underway involving the commander of NorthCom and NORAD, with the Galactic Federation of Worlds. Disclosure would first involve revealing the existence of antigravity space craft, some of which operate out of Raven Rock, and then the presence of extraterrestrial

visitors associated with the Galactic Federation and other groups that have established diplomatic relations with the Earth Alliance generally, and NorthCom and NORAD more specifically.

#21 - 2023 JAN 23 - John Peterson from the Arlington Institute confirms regressive ET groups removed from solar system

John Peterson from the Arlington Institute, a US Navy funded think tank, cites 3 independent sources confirming that regressive ET groups have been driven out of our solar system by positive ETs & in 2023 Deep State will collapse with departure of their overlords. Peterson's scenario is supported by Gregg Braden in their Disclosure interview. Important to point out that this exact scenario was first introduced by Elena Danaan in 2021, which Dr Michael Salla discussed in Galactic Federations, Councils & Secret Space Programs. Ref Ref Ref

In this interview with Gregg Braden, John Peterson from the Arlington Institute stated at the 17:17 mark...

"The sources that I have are suggesting that in fact that there's been a major visit last year last calendar year 2022 that the good forces if you will, have made extraordinary kind of advances and have essentially driven the negative forces off the planet and out of the solar system, at least or something like that, and therefore what is happening is that the human component human leadership elements who used to have the cover and resources and other kind of things from the off planet group, and there's a number of groups in a larger group they've always had Direction and help and the resources and so on, and now that's gone. I've got this from three different independent sources, that's gone and that those folks who we all kind of presume to be up at the top and kind of driving things, are scrambling very hard to try to hang on, because they've lost their their kind of sponsor if you will..."

#22 - 2023 JUL 8 - Thor Han Eredyon discloses that some civilian flights are now being tested. A month later on Aug 10th the first civilian flights were launched into space.

In a second communication with Thor Han Eredyon through Elena Danaan on July 8, 2023, Dr. Michael Salla asked questions about a mega project called the Hub. In this communication, Thor Han reveals that... "when the Hub will be finished then the civilians from Terra will be able to come. This is not for now, this will take time, **some civilian flights are being tested** in the orbit of Terra". The first civilian flights into space by Virgin Galactic were launched about a month later on August 10th 2023.

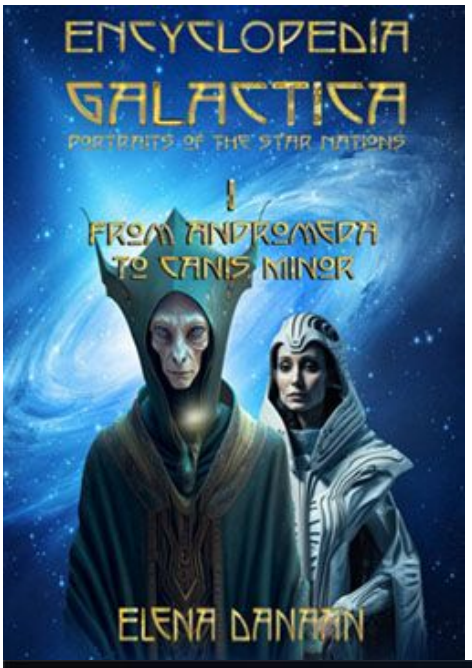
#23 - 2024 FEB 23 - Elena Danaan releases ENCYCLOPEDIA GALACTICA which corroborates with scientists that planet Trappist 1-H may be composed almost entirely of water .



In Elena's ENCYCLOPEDIA GALACTICA volume I: From Andromeda to Canis Minor released on February 23, 2024

In the section on page 88 regarding the TENGUR SYSTEM - Planet ERUYYA and the race of beings called the YURU-VIILI, Elena stated...

"The seventh planet is home to a great diversity of marine life, including a prominent planetary culture called the Yuru-Viili. The Tengri-Tengri also have colonies on Eruyya's surface and underwater bases where they interact with the Yuru-Viili."

In this video by "Space Matters" it stated that scientists have found that ... "The seventh planet Trappist-1H is the most removed from the Star as well as the smallest in the entire system **unlike all the other planets 1-H may be composed almost entirely of water** and is likely to have very little rock in its composition however it's likely also that 1H is heated much less than the others the parent star alone would bring the surface temperature to only about negative 153 degrees Fahrenheit furthermore some scientists suggest that the amount of heat generated by gravity would also be quite low for 1H however researcher Kathleen mant believes that 1H may have a lot of volcanic activity spewing water instead of lava that would mean the planet's able to replenish its atmosphere due to the emitted gases Additionally the

remoteness of 1H allows it to firmly retain its atmosphere probably consisting of nitrogen and methane like on Titan since the Stellar Wind hardly touches it and yet even this quality does not speak in favor of life on the planet it's still very cold and therefore probably cannot sustain water in liquid form the question remains could life hypothetically exist in this Trappist-1 system the tidal lock is not great for sustaining life because one side of the planet's always scorchingly hot and the other side is freezing cold however almost all planets in the system can cope with this drastic difference in temperature due to their water content and their atmosphere the heated ocean and atmosphere can transfer heat to the colder zones maintaining the temperature balance. #24 - 2024 MAR 16 - Thor Han Eredyon discloses that Aerospace Corporation attempts to end run the Jupiter Agreements 2 days prior to its intent being published

A recent effort by the Aerospace Corporation to set up a rival corporate trade bloc in space to what is being created by an Earth Alliance working with positive extraterrestrial associations responsible for building an interstellar trading center above Jupiter's atmosphere called "The Hub." Elena Danaan notified Dr Michael Salla on March 16th of what she was told by Thor Han Eredyon (Read the full text from Thor Han here) about the rival corporate conglomerate being created two days BEFORE a news story was published on March 18th about the Aerospace Company leading an initiative with 30 other aerospace companies for future space activities. The news story corroborated what Danaan had been told, and also that the Aerospace Company was doing this as an end run to it being excluded from the Jupiter Agreements signed in July 2021.

The Aerospace Corporation has been apparently threaten by the information that Elena Danaan has been disclosing. This was revealed in an interview with Dani Henderson on June 22, 2023 as shown on STAR NATION NEWS Ep 23 March 25, 2024

Mr Dave Rossi, inventor and a contractor working with diverse organizations on secret technology programs stated the following: "Specifically what I can tell you is that there is in terms of a department or dare I say a sub Department, one thing I can tell you is that, this is the first time I'm actually saying this publicly, there would be elements out of what we know as the Aerospace Corporation that would be specifically surveilling

certain individuals... What I can tell you is that there are certainly people that consider it a job to surveil Miss Danaan amongst others for many hours a day and weaponize and utilize stigma in an attempt to discredit her and others as well... The name of the company is Aerospace Corporation founded in 1960"

Testimony video of Mr Dave Rossi

WASHINGTON — The Aerospace Corp. and the Space Foundation announced March 18 they are partnering to expand the Space Workforce 2030 program. Aerospace started the Space Workforce 2030 initiative in 2022, forming a coalition of about 30 member companies with the goal of promoting a more diverse and inclusive workforce within the space industry, and to help inspire and prepare the next generation of scientists and engineers. #25 - 2024 APR 13 - Thor Han Eredyon discloses a secret deal made between Iran and Israel to avert a massive retaliatory regional war

14 Apr, 2024 09:54 / Home / World News

Biden told Netanyahu he won't support retaliation against Iran – Axios

Washington is reportedly worried about a major escalation fraught with "catastrophic consequences"

US President Joe Biden (L) and Israel Prime Minister Benjamin Netanyahu (R). © GPO/Getty Images

RT News report that Biden won't support retaliation.

Prior to Iran's April 13 strike, Elena Danaan notified Dr Michael Salla of a message she received from Thor Han Eredyon, who shared information about the secret deal and how this related to an Earth Alliance that the Galactic Federation has been working with behind the scenes. Thor Han's message gives more details about the secret deal and how it relates to a wider struggle between the Earth Alliance and the Deep State over the future of the planet, as well as extraterrestrial disclosure.

THOR HAN April 13, 2024

On April 11, 2024, government officials and military leaders from several Earth Alliance member countries met in secret to discuss a plan of action against the Deep State. The U.S. White Hats were there, as well as Putin, some representatives from Iran, and from "secondary power" Islamic states that have recently joined the Alliance, such as Saudi Arabia and Egypt, among many others.

The Earth Alliance has been preparing to overthrow the Deep State for some time by buying back Islamist countries, such as Egypt, that were financially dependent on the Deep State's banking overlords. When these countries regained their independence from the Deep State, they joined the Earth Alliance and switched sides.

This is not just a war between two countries; there is a deep and complex silver lining. The Iran-Israel conflict is just the tip of the iceberg. The reality behind it is about a deal. The Earth Alliance is trading a list of things, including: the Deep State and its assets leaving Ukraine and giving it away.

When diplomacy didn't work as expected, the second step was the scare tactics. However, the situation is more complex than that. Iran doesn't want to get into a war; it's just playing the threat to get the Deep State to back down on the terms of this multi-level deal.

If tragedy strikes, it will not be at the will of the Earth Alliance, but as a result of the resistance of the old paradigm. The dark institutions that have ruled this planet have lost their off-world support, and they would rather destroy everything in their fall than surrender. Therefore, deals have been worked out to avoid chaos and death.

These meetings and the decisions that have resulted from them have been made by the Earth humans in charge. We can only wisely advise and assist in critical situations, which we have done and will continue to do diligently, but the future of Earth is in the hands of the Earth's people. Stand strong with hope in your hearts, for this is the turning point for your freedom and your future. You are not alone.

T.H. Eredyon, GFW XL6 Sol Station High Command.

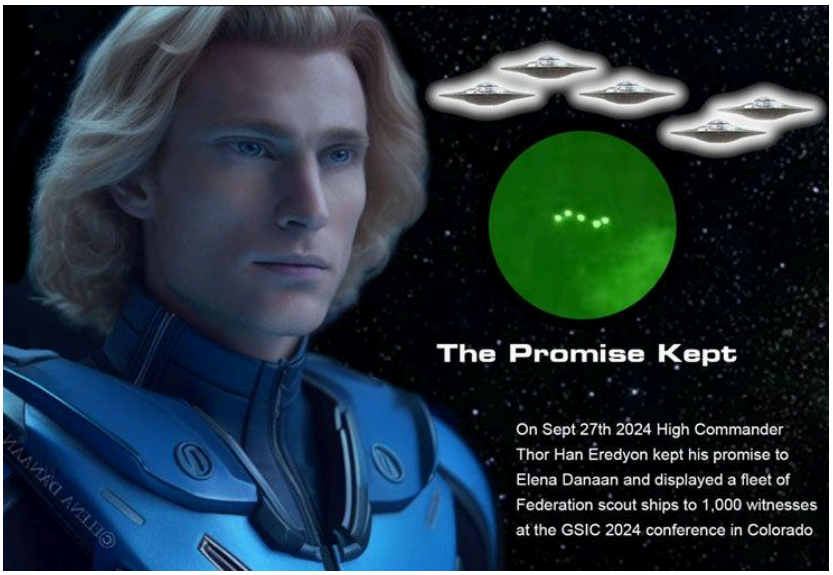
#26 - 2024 SEP 27 - Thor Han Eredyon kept his promise to make a show in the sky with a fleet of Federation scout ships for the GSIC 2024 conference in Westminster, Colorado



On Aug 1, 2024 Dani Henderson video interviews Elena Danaan on her youtube channel regarding the GSIC 2024 (Galactic Spiritual Informers Connection) conference where Elena guarantees that Thor Han has agreed to

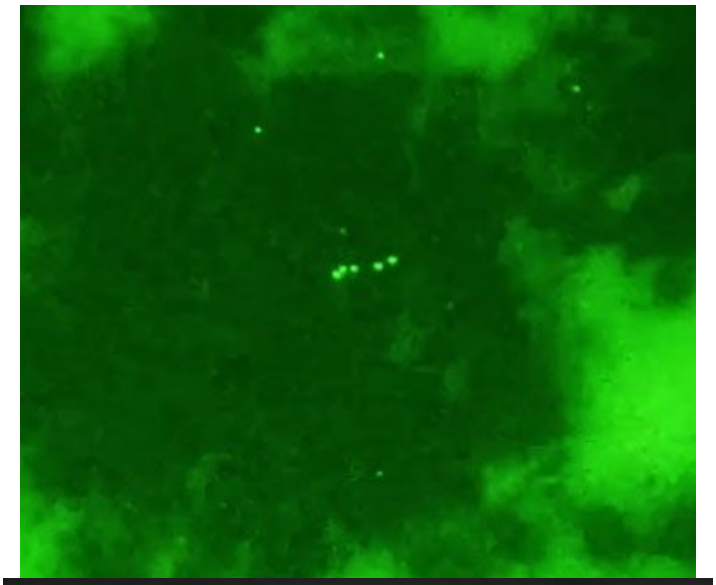
do a display in the sky during the conference to all the attendees. This display of the Galactic Federation of Worlds scout ships performing in the night sky was done previously in July at the conference in France. The conversation follows...

Dani Henderson:
"We can actually guarantee there will be actual UFO alien off Planet craft not what the military make, not their Hannebue UFOs, but the real ones from the Galactic Federation of Worlds, we're actually guaranteeing that aren't we Elena? "

Elena Danaan:
"Yes we are guaranteed yes, yes and Thor Han agreed to perform this show for me for us in France, in the conference in France, that was occurring in July, and so I know what is going to be, we're going to have the same show and even more, because Thor Han you know being at the high command of his Battleship, he has a decision on the fleet, so he can organize a show and well you know you are going to be impressed, because it's for someone who has never seen that, it's very impressive. We had I know in France we had 700 people at the time there two sessions they were like shouting and jumping and crying it was incredible and that's going to happen for GSIC, and even more he said to me, so I don't know what he's going to do more than this, but that is I know for having witness people seeing that kind of stuff, it's going to be very emotional you know for all of you who have never seen spaceship, so I warn you it's going to be emotional for all these people, so yes that's going to be a great show, oh my goodness I know what's coming, I know it's going to be."

Then on Sep 27, 2024 between 9:13 - 9:22 pm MST Thor Han Eredyon delivers his promise.

Inbäddad YouTube-video på originalsidan:
https://www.youtube.com/embed/D8VYpein6cg?si=fZtlkKNOyhup_v5v



Thor Han commanded his fleet of Federation scout ships into various formations and then had the US Navy to fly in a TR3B overhead. Elena explains in this video how this was arranged by Thor Han.

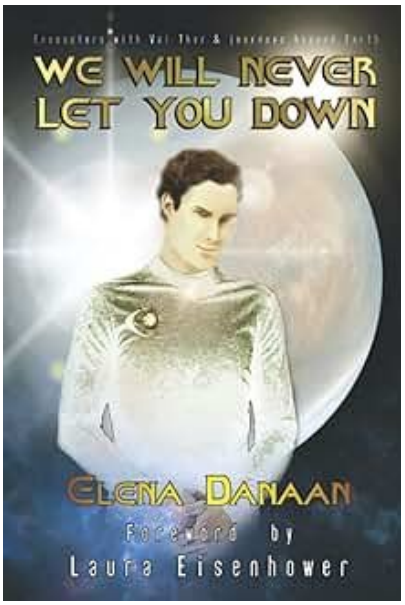
Dani Henderson stated after the event *"How else could we provide a fleet of UFOs at the time we said. Over the hotel we said. In restricted airspace with a no drone flyover."*

Illustrations of a Galactic Federation Scout Ship and a TR3B

Note: The Galactic Federation of Worlds Prime Directive regulations at this time prohibit entering Earth's atmosphere past the edge of space (62 miles above the planet surface) This does not apply to the US Navy who flew in a TR3B triangular anti-gravity spacecraft and flashed it's green lights as in support of this disclosure to the public. This event was covered in Star Nation News episode 49 by Elena Danaan Ref Ref Ref Ref Ref

#27 - 2025 JUN - Thor Han warned that in the future the preconditioning anti-propaganda will be to try to demonstrate to the world that the Galactic Federation is evil.

In Elena's book "We will never let you down" The following was warned by Thor Han Eredyon.



April 11 2021. Elena writes:
"I had a telepathic contact with Thor Han today. We talked about this subject many times already; he has been warning me about the eventuality of a staged alien invasion for a long while. The aim of our invaders and the Deep State working with them, is to subdue the Terran population by fear, lowering their vibration to mind control everyone more rapidly. We will never stop repeating enough to you, that fear is the main tool of the Dark Alliance, as Thor Han likes to call it."

"The Deep State and their allies want to give a bad name to the Galactic Federation, making people believe they will be the harmful invaders. The preconditioning anti-propaganda has begun already, trying to demonstrate to the world that the Galactic Federation is evil. But we are not fooled, and the Galactic Federation is not going to let this happen." Ref page 253

Elena spoke of this on April 13 2021 in this video about the future psychological attack upon the motives of the Galactic Federation of Worlds. This narrative as predicted, appears to be active in this time frame as Thor Han warned.

#28 - 2025 NOV 10 - The ancient floating cities in the upper atmosphere of Saturn recently detected by NASA?

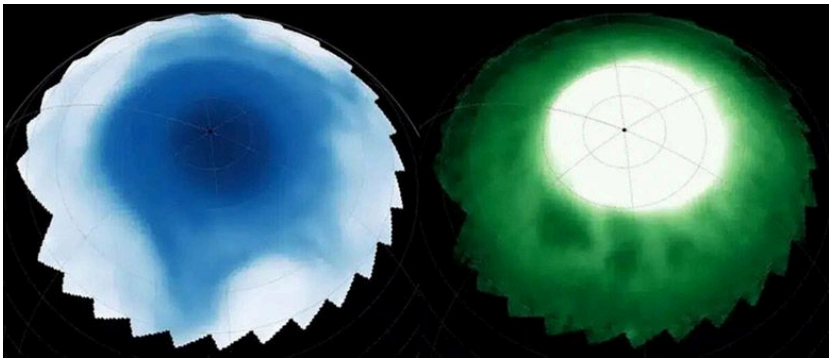
Elena Danaan has been describing since last year the ancient floating cities of Saturn that were documented in her Star Nation News #14 and #16 as well as her book KOLDAS on Page 380

In an interview in France Elena said:

"A few months ago I got the information that the Earth Alliance invited a team of scientists, there were topographers, biologists and other types, mainly topographers that were brought by the Earth Alliance and Military to protect them and to bring them there on Titan, a moon of Saturn, and they were received there, they were given quarters and facility to be **brought to**

Saturn to study ancient floating cities, because on Saturn there was a group very ancient group called "The Builders" who left cities floating cities anti-gravity cities but that was hidden from everyone because you could never access Saturn."

Recent discoveries by NASA's James Webb telescope have left scientists baffled regarding structures detected in Saturn's atmosphere



(Image: NASA/ESA/CSA/Stallard et al 2025)

https://www.the-express.com/news/science/190106/scientists-nasa-james-webb-telescope-defy-comet-structures

NASA’s latest findings have stumped scientists, as the James Webb telescope has uncovered strange and never-before-seen structures in Saturn’s atmosphere. Using the James Webb Space Telescope (JWST), NASA has discovered two previously unobserved phenomena in Saturn's atmosphere, and so far, they can not explain what they are. Published in Geophysical Research Letters, the new peer-reviewed study notes a pair of atmospheric anomalies that includes a string of dark structures, not seen before on any planet in our Solar System. The structures were found drifting in Saturn’s ionosphere, with an asymmetric star-shaped pattern in the stratosphere directly below. Both features defy previous scientific predictions. The findings were observed in an area known as Saturn’s sub-auroral ionosphere, a region roughly 1,100 kilometers above the planet's clouds. “No known ionospheric planetary analog exists” with the specific features the structures were displaying, the authors write.

This wasn’t the only anomaly the researchers found, however. In the upper stratosphere, at an altitude of approximately 600 kilometers, they discovered a six-armed, star-shaped structure that was dark against the surrounding brightness. They noted that two of the six arms were missing from the shape, leaving a strange, asymmetric figure. It is said to be unlike anything previously recorded on Saturn or anywhere else.

#29 - 2025 NOV 11 - Alex Collier meets physically with Elena Danaan onboard the Zenate mothership from Andromeda

Inbäddad YouTube-video på originalsidan:
https://www.youtube.com/embed/zPWBaDeRDHk?si=oe4BlnWFufG1KzMM&start=1108

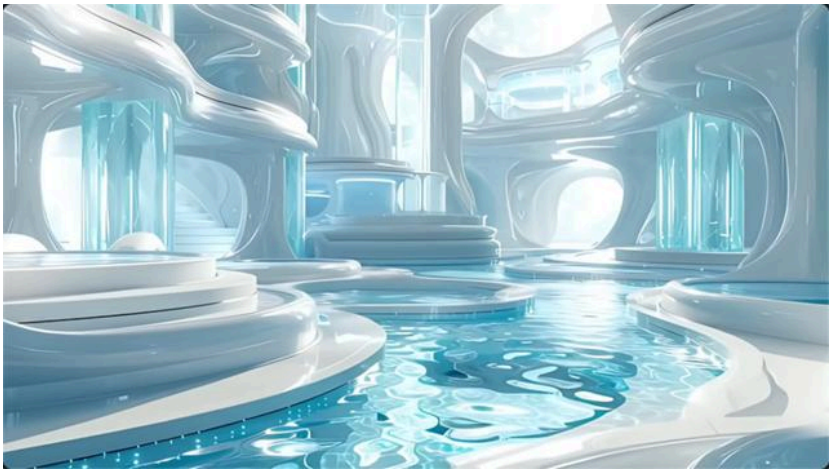
In the above Star Nation News #95, Elena describes in the below text her experience meeting with Alex Collier, a highly credible contactee and emissary for the Andromedan Council onboard a Zenate mothership.

"I am also going to tell you a story now which is real and true and that that happened actually on November 11. I have the authorization, after pondering this. "Will we tell them? Will we not?" And Alex Collier... got back to me one night and said: "You know what? Go for it. Let us amaze them and shut up some mouths." So let us rub it a little bit in some faces. But it is foremost to share with you this beautiful experience. Thank you, Alex, for allowing me to talk about it. So that night I was brought on board a Zenate mothership, on November 11, 2025. Zenate motherships are gigantic spheres that expand space through frequency technology. That means that the ship can appear much smaller than they actually are. I had never been on a Zenate mothership before, so I didn't initially understand why I had been invited. It was very special for me and I didn't know any Zenate either. I saw once a Lady Zenate when I attended a council, but she just introduced me to the room and that was my only physical meeting with a Zenate woman in the past. And I knew another Zenate who is actually incarnated on Earth, my dear old friend Alex Collier. My friend is the Andromedan Council's emissary on Earth. You know they have one emissary per organization and he regularly visits his Zenate friend Morenae. Morenae is a tall, elegant man with shimmering blue skin and eyes. He is the admiral commander of this starship. I once saw Morenae through the eyes of Annax, who met him during diplomatic exchanges between the Zenate and the Council of Five. But I never met him in person. He's very tall, very tall. It was Alex who greeted me wearing a blue jumpsuit.

And it is always delightful and fun to meet a friend from Earth so far away in space. So Alex guided me through the wide curving corridors on the pale floor that seemed to breathe faint pulses of light. The air shimmerred, fractal colors dancing like etheral kaleidoscopes suspended in motions. Blue breakings into magentas, then fading into silver. Every breath filled our lungs with the impossible scent of jasmine and ozone, crisp and floral at once. When we spoke about it with Alex afterwards, on the following day, he said: "Do you remember the smell?" I said: "Yes, yes, a blend of... a weird blend of jasmine and ozone." He said: "Yes, yes, that's it. Do you remember the air?" I said: "Yes, fractals of color." "Yes!" Oh, the conversation on the following day was amazing. And then, we emerged into a vast chamber

where water pools were there in basins in teared basins and each level was catching light from unseen sources. The surface of the water rippled softly, reflecting the ceiling above.

A living architecture that seemed to grow rather than be built. Its organic curves gleaming with like the inside of a shell. The reflections danced across it breaking into a thousand fragments of movement that climb the ceilings contours before fading into iridescence.



Graphic Artwork Credit Stef Zak

We could hear Zenate children joyfully playing in the distance in the basins and messing around playing in the water. They were so beautiful. Their blue skin glimmering with the reflections of light on the water. Their laughter echoing in the vast domed ceilings. It was really beautiful and the vegetation was undescribable. New species I never seen before with amazing colors and somewhere a bit phosphorescent like on my home world. And something strange and beautiful happened. I reached out a hand and above the water and I saw the water responding, not touching the water. There were rings spreading outwards like ripples. And it was like if the water was touched by my own electromagnetic field and it was pulsing with my heartbeat. And it was the water was pulsing like a little bit of light, amber light. It was really beautiful. And the air, the fractals of colors in the air shimmerred and it it was moving like alive and bending towards us, like curious. The air, the light was curious and the ship was a living entity. So, Alex smiled because he was watching my reaction and I was like: "Wow! Oh wow!" He was like, you know, Alex like, like this. And he said to me: "Well, you're part of the ecosystem now. The ship recognizes new consciousness. It welcomes you." He said to me. it was beautiful. I knowAlex since the time of the Orion Wars about 300,000 years ago in Earth time. Time is different in different parts of

the universe, the galaxy. And we remember when we led the Black League rebellion against the Nebu takeover of hundreds of star systems. We found one another again a few years ago and recognize each other. Alex paved the way for our collective ascendants, leading the army to rise. Yet he was mercilessly targeted by the adversaries of humanity. Despite tremendous efforts to shut him down, he never wavered. He stood strong in honor and integrity. We stood there in perfect stillness like two very old friends. listening to the Zenate children playing in the water pools and silence spoke its own language. We had completed our mission. The children of Earth were awakening." Ref Ref

Confirmation of the meeting with Elena by Alex Collier, Andromeda Council Emissary

On Alex Collier's Q&A webinar #75 on Nov 28th 2025, a participant asked Alex…

"Is it true what Elena Danaan said in her Star Nation News #95 of November 24, 2025, namely that you met her on the Andromeda mothership with the playing and laughing children and that you talked about it the next day?

Alex responded:
"Yes it is true, in fact let's just have a conversation about that one. Number one, it was Morenae's new ship okay, and it is significantly larger than his old Scout ship which he still in fact has. It was arranged by the A's (Andromedans) and the P's (Pleiadians) to to bring us together on their ship, now it had more to do with the A's wanting to meet Elena, or be have her energy around the women, the Andromeda women, it had more to do with that than anything, and you know it just took place in 5th density, I know Elena just talked about her putting the belt on, but she was very enamored by the physicalness of the ship and everything that it entail, where I'm sure if it were the other way around and I was on a P (Pleiadian) ship, and they're they're different culture, that I would be equally as enamored and taken by it's architecture, it's beauty, it's colors, everything, so it did happen and it was it was a really good thing, I was just as surprised that she was, and it according to the A's it went very very well, there were a lot of children around, of course they're always are, and you know Elena being so telepathic she could hear the children okay, where normally they don't make a sound, but you know they do talk with each other, thoughts are a frequency of vibrations so she can hear that, plus she has the chip (implant), where I don't.

We have a difference of opinion on the jasmine smell, I don't think it's Jasmine, I think it's something else entirely, but that's how she associated it being Jasmine and that's fine you know. I cannot tell you exactly how long it lasted because when you're there time is completely irrelevant, she did interact with it, you know what's interesting is that the new belt that will give us the ability to see more of 5th density, so I saw things to there for the first time I haven't had an opportunity to share, in fact this is the first time I'm talking about it, I don't know that I would have talked about this at all had she not wanted to say something publicly about it, Because, you know, I learned years ago that people either appreciate it or they hate your guts for it, and I just, you know I just learned not to share much because this threatens people, it threatens their belief systems and threatens what they think the world is, and it's much easier to just discredit somebody by calling you unreliable, fraud and a fake, yada yada yada and all that bullshit, where you know they in fact have no clue what they are talking about, but you know, everybody's entitled to their opinion. Which is why I said up front you'd be amazed at…

At this point the internet connection with Alex was lost and resumed a few minutes later...

Again okay, it was arranged by the A's okay and the A's were very interested in meeting her and having her presence on board the ship, and a lot of screening of bureaucrats and emissaries even you know other Star Nation emissaries is a lot of the screening is done by the women okay and that was part of why she was there and they wanted to meet her and see her energy, feel her energy etc and my understanding is it went very very well, and it was a surprise, neither of us were told that this was happening, but nonetheless it was it was really great and she was extremely enamored. Now the new belt that has been created, not only gives us the ability to see more on the ship in 5th density, but it also gives us an opportunity to consciously change our attire and the color of the attire, so that's a new addition and that was the first time I had actually used that new belt for myself. What do I tell you, it was kind of like show and tell you know I've been on board more often than I've ever shared with anybody because you know I just don't share it anymore, because it's not about me, and I don't want it to be about me, I never have wanted it to be about me, you know, what was important for me is to just to take the things that I've learned and share it and pass it forward, you know I've been on M's new ship, you know he still has his old scout ship and I just hadn't shared it, so now I have to, it's wonderful, it's I don't know, a couple hundred square miles as we would measure it on the outside, but on the inside it's of course much larger, it has four levels instead of seven or eight or nine, it's not quite as big but it's it's great and it has a significant population on it, there are children they're always families and I talked about that at the beginning about those who choose to be on a Starship and those who prefer to be on a planet, you know those that are on the Starship now may choose to be on a planet and they would be returned to one of the many different planets in Zenate or colonies, or you know if they choose that's what they want.

So the way Elena was able to adapt to the ship to the culture to see an interact with the ship itself which of course is living, clearly shows how how well traveled she is, both on Earth and off Earth, and I know there's some people very upset about this, but you know, that's your shit, that's not her shit, just for the record, and the women were very interested in and watched her very very careful and watched her field and you know, and I know, that she's used to this being around telepaths and you know they listen to her

chains of thoughts, and you know she was wearing a jumpsuit as well, and you know, that was immaterial to us. But she was really enamored with was how the ship interacted with her, and how she interacted with it, and that she could hear the children because she's she's a very astute telepath, so she could hear the children talking to each other and making noise. It's just they do communicate and if you're a telepath, then you'll obviously you hear conversations. It's just that you're not using your physical body in order to do that it's consciousness, it's the third eye and you know she was you know, how do I put this, she was born for the time, and you know the role that she's playing now. She was born for, and she came in to specifically do this.

You know the A's and the P's have a long history together and there are many bridges that have been built you know over many millennia between the two civilizations and the peace with other nations as well star nations, so and that's what it's all about, it's about bridging, it's about bridging civilizations and creating commonality, creating the avenues of dialogue and communication and sharing of knowledge and Technology, and she's clearly an integral part of that, and you know she's gifted at the role and she wants the role, and it's great it's, it's great, she does it well and watching her you know, not only around the A's and the ship, it just how they responded to her, it's as if on some level that they knew her too, and I thought it went very very well, it did, and it was nice to, it was nice to have a friend there.

When I was a kid I used to paint bridges for the old Penn Central Railroad it was in high school I would do that for the summer and I was the only white guy on the crew the rest were Native Americans and African Americans and I was called "Spot", well sometimes when I'm on the A's ship, and it's just me, I feel like "Spot", you know, I'm the only one. So it was nice to have some company, another Terran on the ship, and it it was as much fun for me as it was for her, and I hope it happens again, except I hope you get a heads up on it, I do and you know I know there are people already poo pooing it, but you know I can speak for myself and probably for her, we don't care whether you believe or not, it doesn't matter at all to us whether you do or not, none whatsoever, what matters is that you prepare yourself for just such an experience if you're lucky to be able to be in the presence of another civilization, it it changes your life it absolutely does and it changes your life in ways that are very very unexpected, for me it was a measure was a measure seeing their confidence, seeing their grace, seeing their authenticity, seeing how they interact with each other, it raised the bar for me, and it was and I'm still trying to achieve that bar and work towards that bar in my own personal relationships.

It's easier when everybody's on the same page, we're not on the same page down here, but they are they're all on the same page, so of course it makes it easier, but it gives us a measurement it gives us a bar, it gives us a perspective of what other civilizations would be like. You know for someone who goes to Europe for the first time or to Asia and you see how the people act with each other the culture you know there are things that you really like about it, maybe things that you don't like about it. but you take notice of the things that you do like, and you take those with you when you go back home, that's how it is with me in the A's, I try to take those things back off with me, sometimes they don't fit because we're not on the same page down here, but I continuously work it for myself to make myself better and I believe that's the same with Elena with with her relationship with P's and the other groups that she's meeting, you know she's meeting more star nations, different star nations than I am, and that's great you know, she wants this role, she's committed to this role as an emissary, and she's fitted for the

times, she is, and I know how many people are shaking their head, you know that's your shit that is absolutely your shit, and you're just going to have to deal with it okay, you're just going to have to deal with it, and I realize this you're going to be turned off, some of you will be turned off you know, put yourself in her shoes, put yourself in my shoes, you know it did happen, it was wonderful, it was great and nobody can take it away from us no matter what you know and hopefully it'll happen with others.

It would be great to meet JP on a Starship, it'd be great to meet Dan Willis on a Starship, it would be great to have them bring Brad Olsen up to a Starship and give him the whole history of download of the entire history, and then watch him go crazy with books. Dr Salla, theres another one, take him up on a Starship and have them give him the download and watch him go crazy rewriting some of the information he has on some of the old books and then putting everything in perspective and writing a whole new series, you know there are people that in my opinion that deserve this and should have that opportunity because in my opinion they're all fitted for the time to do this type of work.

I don't know what else you can say, because you know there's a lot of things I haven't shared and that's because their personal to me, and I'm just not going to let anybody poo poo it because they they have their own personal bias, so that's why I don't share a lot of stuff you know, so you know they can attack me, but they can't attack the A's, so it's just not okay, we'd have lost our planet already and most of our civilization would be gone already if they hadn't of intervened, and that is a fact, that's a fact, so and hopefully one day all that information will come out and will be shared with all of you so you have perspective of how down and dirty this was, you know, and how we as humanity had been so completely betrayed and sold out, it's unconscionable." #30 - 2026 JAN 4 - Elena Danaan traveling to Mars with Prince Ea describes exactly the planet's colors as newly released photos confirm

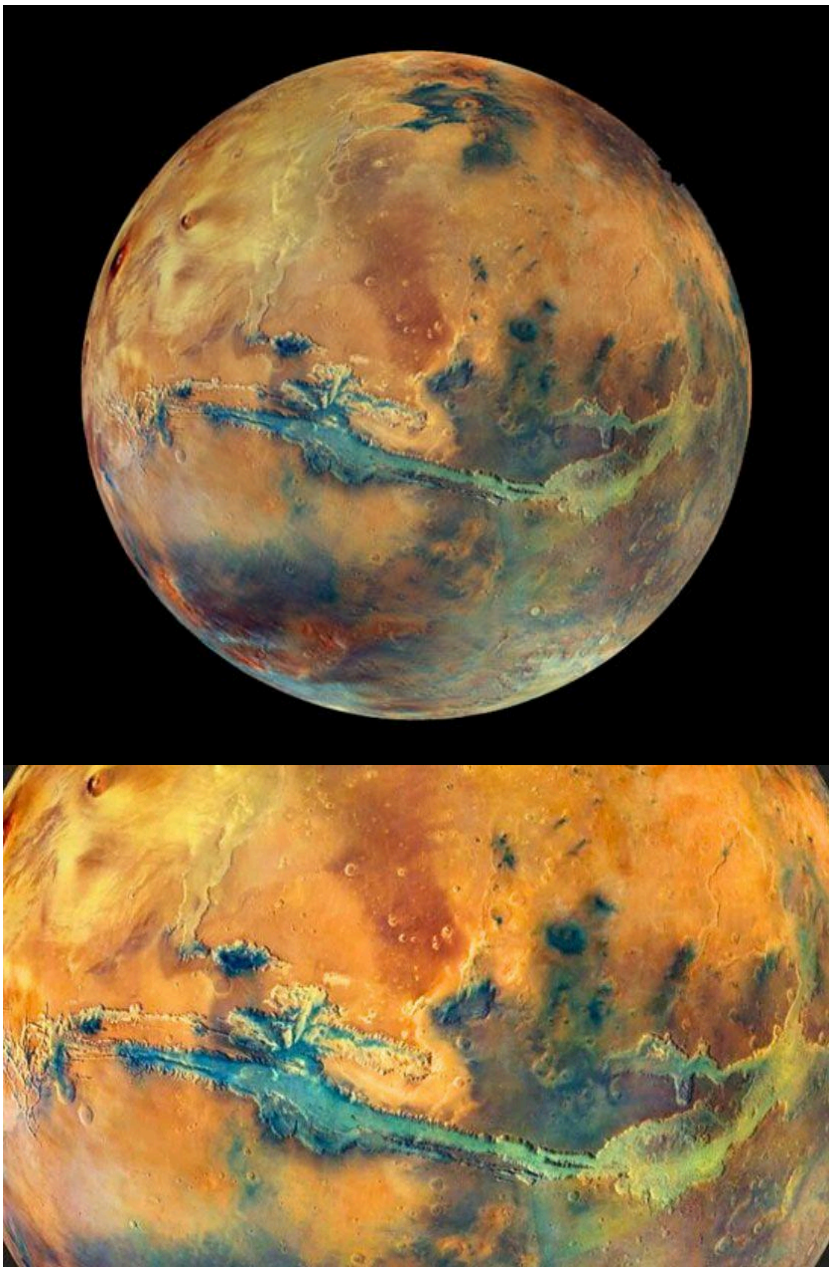
On October 3, 2025, Elena was invited by Prince Ea to travel onboard his shuttle traveling to the planet Mars. Elena described the green colors she observed from the shuttle. Elena's description of the planet's colors matches exactly what the newly released photos of Mars published on January 4, 2025 by the European Space Agency reveals.



Images of Mars showing it's real colors after 20 years of orbital secrets. Credit: ESA Ref

The following text is from Elena's article describing her October 3, 2025 trip to Mars:

"Ea topped it up by offering me to meet with the Explorer physically. On the night of October 3, 2025, he invited me to travel and meet the interstellar visitor. Having arrived in our star system in July 2025, the visitor was set to reach its perihelion behind the Sun on 29 October, passing only 30 million kilometers from Mars on October 3. He was picking me up with the golden shuttle and we were making a stop on the way, on Mars…

Ea was standing in the command room dressed magnificently as ever. He turned to welcome me as I walked from the shuttle's teleport pad and invited me to sit in one of the two secondary front seats on either side of the main command chair.

-I have never been on Mars, I said. It is a very exciting first time for me!

-The visitor is at its closest from Mars, Ea replied, an opportunity for you to stop by and salute your good friend, Jen Han.

-How wonderful! Despite working with the Galactic Federation of Worlds, I am a civilian. Earth civilians aren't allowed on Mars at the moment because it's under the protection of the Earth Alliance, a military organization.

-Don't worry. I have galactic diplomatic immunity. I can go anywhere in the galaxy and bring guests.

The golden imperial shuttle set course to the red planet. I was so excited and nervous at the same time. I have been to many amazing places already, but Mars was always to me a forbidden planet, and at the image of the unavoidable, natural tangent of evolution, we are always drawn to what is out of our reach.

And there it was: Mars. I was surprised to see that it is not the uniformly red, dusty desert that NASA photos show. It has large ice caps and several green patches resulting from terraforming operations. As soon as we entered lower orbit, a military operator with an American accent addressed us in English through the command board's speaker. The soldier requested landing authorization from the Earth Alliance, and I wondered how long it would take him to realize who he was addressing. Ea, in turn, responded to the operator with patience and elegance. When he declined his titles and status, there was a silence of a few seconds. Then, the operator made him repeat himself, probably incredulous. A few seconds later, the soldier resumed the conversation, this time with a trembling voice, saying that they had verified the signature of our ship and apologizing profusely for the inconvenience. It must have been a shock for this simple soldier! Now stammering, the operator applied protocol by requesting validation for the other people on board. Ea exchanged a complicit smile with me, then addressed again the operator." Ref

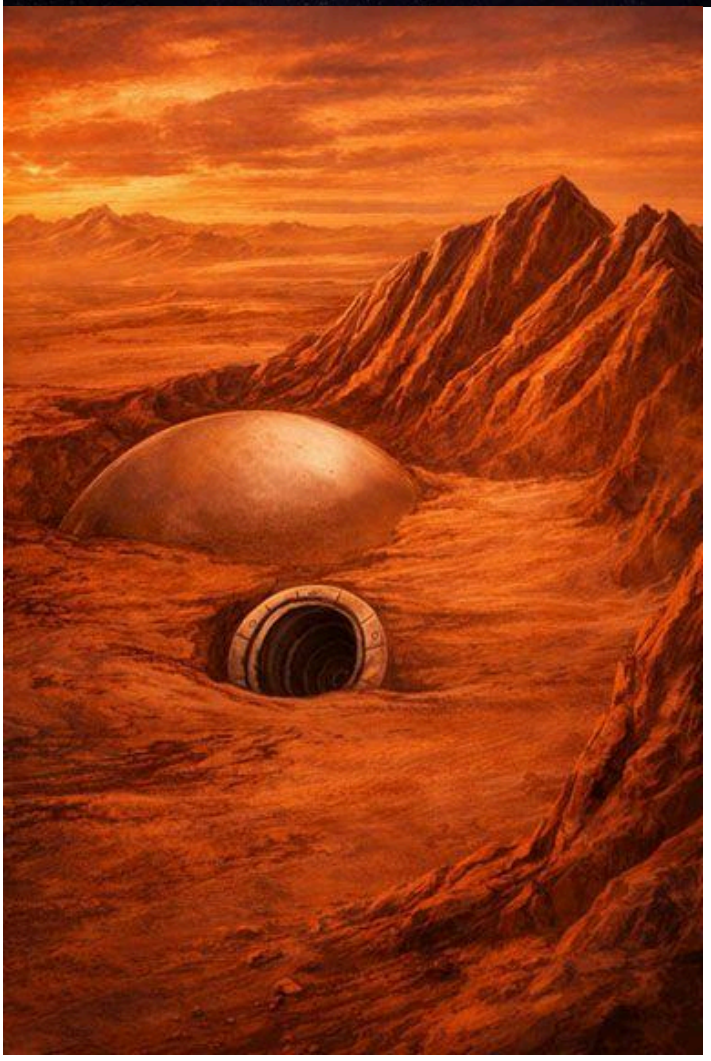
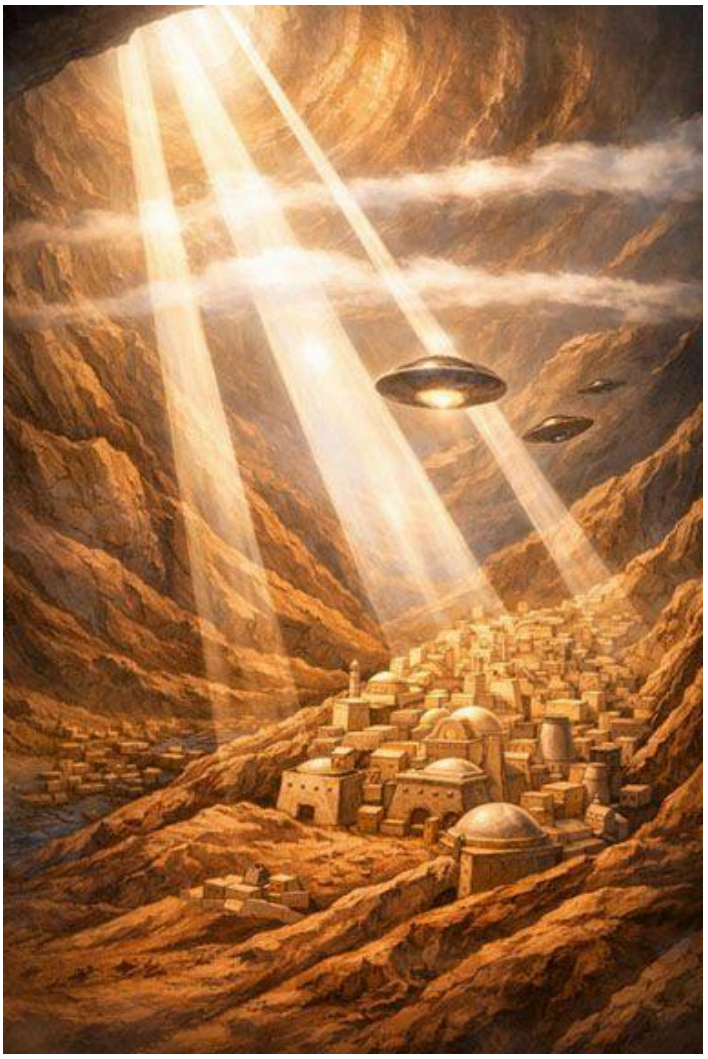
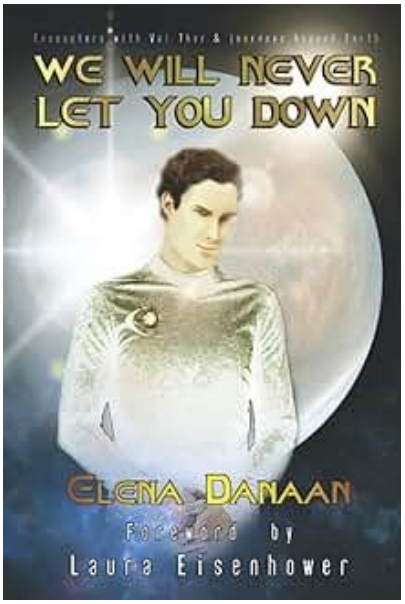
#31 - 2026 FEB 9 - NASA discovers on Venus vast underground lava caves as Elena described as she entered beneath the surface of Venus





In Elena's book "We will never let you down" Published in 2021. Elena wrote the following on her visit to Venus.



Elena writes: p.119
"We hovered for a while above the Venusian atmosphere and my excitement was increasing. I had no idea of what to expect underneath the thick shield of lethal acidic clouds. How could any life thrive in such extreme conditions? Besides the fact that our slow orbital flight was allowing us to admire the view, I understood that Thor Han was aiming for a particular and precise

location to enter the atmosphere. Something lit up on the control board in front of him, and the ship stabilized. Then, we just dropped vertically through the shield of sulfuric clouds, which opened like a tunnel to let us in. Extraordinary! Wow! My throat dried as we slid underneath the atmospheric cover and flew over a desolate burnt landscape, composed of peaks and craters immersed in a copper smoky light. This landscape wasn't at all what I was expecting from Venus! The craft was sliding fast between mountain ranges and after not even a minute, there appeared below us one half of a crater, as if one side had been artificially eroded to ground level. There, we saw a flat and opaque dome, barely perceivable as it seemed built with the same material as its close environment. This dome would be totally invisible from space, if it were possible to peek through the dense shield of acidic clouds. Near this construction was what looked like the entrance of a tunnel leading underground, and our ship rushed into it. It was dark, and the artificial lights running on the sides were here rather to indicate the way than to brighten up this flight corridor. And suddenly...

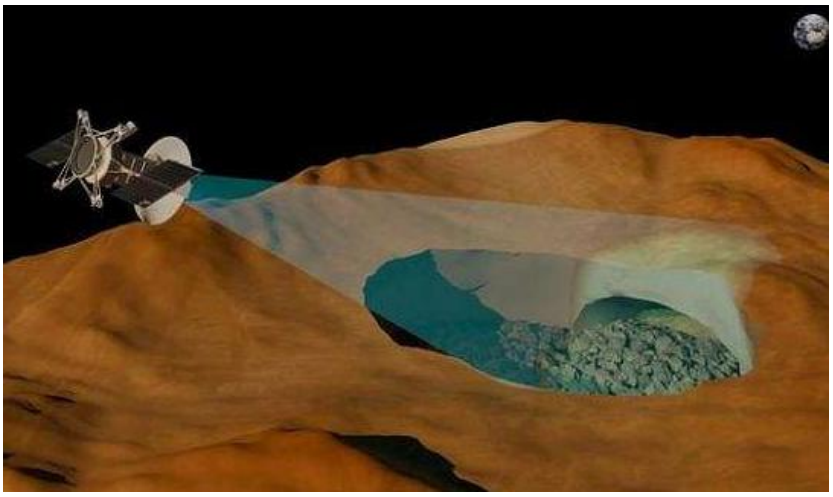
A bright blue sunlight blinded my eyes for a few seconds. What was that? We were underground, but the spectacular landscape unfolding in front of us seemed like a movie set from "The Lord of the Rings". A green valley appeared in-between blue mountain ranges, at the bottom of which a futuristic city stretched out under a beautiful light. I was mesmerized by this vision, speechless, and I heard Thor Han providing answers to the questions that were pulsing in my head but dying in my throat.
-Each biodome has its own artificial sun, he said, powered by antimatter. The metallic dome you saw on the surface, before we entered the tunnel, was just a small element of this one.
-This is gigantic...
-Very extended indeed. They are not exactly domes, but rather complex structures. There are hundreds of them underneath the surface of this planet. Ah, here's the landing port, we've arrived. We entered into a round opening in the ground, then flew shortly through another tunnel leading to a vast hall where other ships were parked.
-Welcome to Venus! said Thor Han."

Elena writes: p.126
"In truth, I was experiencing a slowly increasing dizziness. Was it the composition of the air, or maybe the emotion of being here ?
-**It's the lighter gravity**, answered Thor Han who had read my thoughts."

Note: Regarding the lighter gravity on Venus. Ref
According to Professor Lorenzo Bruzzone "The physical and atmospheric conditions on Venus appear to favor the formation of extensive lava tubes. Compared with Earth, **Venus has lower surface gravity** and a much denser atmosphere, factors that can enable rapid development of a thick insulating crust as lava flows away from a vent. This environment may promote the creation of large and stable underground channels capable of spanning great distances."

Star Nation News #104 discusses this trip to Venus

Venus radar study reveals vast underground lava cave



Scientists Intrigued by Possible Hollow Structures Under Surface of Venus

New research indicates that Venus hosts a giant empty lava tubes beneath its surface. Using radar images from NASA's Magellan mission, a team at the University of Trento has identified a skylight feature in the Nyx Mons region that reveals a large underground cavity interpreted as a lava conduit.

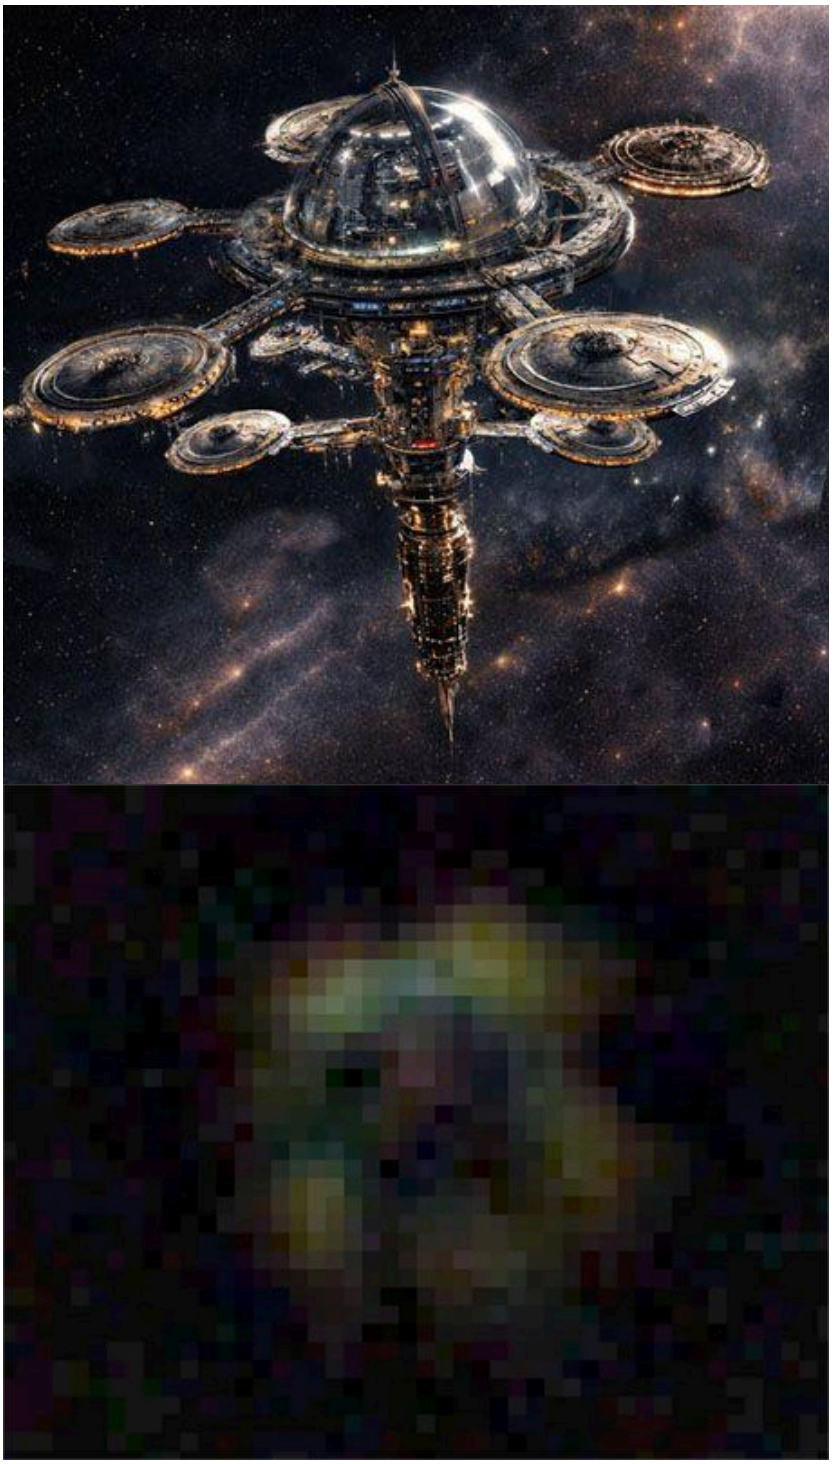
#32 - 2026 MAR 14 - Astronomer detects strange object outside of Jupiter that appears in the form of "The Hub" that Elena described.



Oct 26, 2023 Dr. Michael Salla interviews Elena Danaan asking Thor Han about "The Hub". Full Video Interview

The following is a partial transcript of that interview:

Salla: Welcome Elena and welcome to Thor Han.

Elena: Thank you Michael and Thor Han is connected to me and very impassion and impatient and happy to do this.

Salla: This is wonderful, well I know the last time we communicated with Thor Han during a road trip from to towards Nashville Tennessee we talked about The Hub, the Galactic Federation, the Galactic Council, Ashtar Command was working on in collaboration with the Earth Alliance and space command, so can you give us an update on the Hub, you know where

does that stand right now?

Elena: okay so I'm going to repeat what he's saying regarding the Hub in the Jupiter orbit. The construction has gone forward, many ships have been linked to the central Mothership offered kindly by the Alteans from The Intergalactic Confederation, many tunnels have joined the ships together and now it is starting to look like the first ring is about to be completed, we have welcomed some technicians and workers from the space force military personnel from Terra, they are working and preparing the facility for them to settle and have their own Terra military Hub in one of ships and anchored to the central Mothership.

Salla: So this Altean Mothership which is at the core of the Hub, we could call that a space ark, is that something that is like brand new that's just been recently constructed or is it like an ancient space ark that was that's being repurposed to be used for the Hub?

Elena: This is one of the motherships that came with the fleet from The Intergalactic Confederation, this mothership was offered as a gift, it becomes the center of the Hub, you call it ark, this is right, this corresponds to some arks ancient motherships from different races of The Intergalactic Confederation left on your planet Terra and several other planets of this star system.

Salla: Now with these arks that were left on Terra in ancient history, I mean we know there are 24 Seeder races so is it correct to say to estimate that there are 24 space arks buried all over the Earth that correspond to one of the Seeder races?

Elena: This is not exactly correct, 24 arks from The Intergalactic Confederation some of the members of The Intergalactic Confederation group you name the Seeders, do not travel in motherships so some motherships are double or triple from some civilizations members of the Seeders, but the 24 number is representative of the Seeders group and they hide each of the technology of each personal member of this group.

Salla: So with using the Seeder Mothership that was used as the foundation or the core for this Hub, with Advanced Technologies and more ships around it, that's the same pattern for earlier civilizations like the Atlaa civilization of Atlantis, that was kind a similar pattern?

Elena: This is exact, the Alteans like to build such as this and also the Pa-Taal and other members four groups are building their colonies as such the Alteans founded Atlaa which was built on an Altean Mothership.

Salla: So you said that this Altean Mothership that's at the core of the Hub that's being built now is a gift to humanity to the Earth Alliance and space force and space command, so does that gift mean that the Technologies on it are kind of like available to be studied and to be reverse engineered or used in some way by earth scientists.

Elena: Yes this is exact correct, the technology will be available for all Terran military at first and then civilians and scientific organizations, the Alteans also gift in this Mothership other Technologies belonging to other groups belonging to the Seeders and you will have access to all the technologies that are implemented in the Intergalactic Confederation.

Salla: So with the Mothership at the core of the Hub, does that mean it's only Altean star seeds with the right DNA and Consciousness that can go in to activate these Technologies to then share with space force with the scientists of the earth Alliance.

Elena: This is correct.

Salla: So is this what they're doing now, are they looking for Star seeds with the right Consciousness and DNA to be able to interact with the Altean Mothership that's forming the Hub?

Elena: This is not the priority, the priority of finding the star seeds and envoys as you name them, belonging to the Intergalactic Confederation that are on Terra are to localize these people that they can use the technologies that have been hidden on Terra for such a long time, the same people will be also able to access the technologies that are offered in this Mothership in the orbit of Jupiter.

Salla: So when will The Hub, which of course is the entire infrastructure that's being built around this Altean Mothership, when will The Hub be complete?

Elena: We do not know for certain yet, but it will take from one to two years.

Salla: So the completion of the Hub we can expect that to happen soon so once that is completed what will happen next, I mean will The Hub be disclosed, is it up to the Earth Alliance what's going to happen?

Elena: The Hub will be already disclosed during its construction, it is already known to the Terran military certain sector of Industry which participates in this construction, after the Galactic Federation includes Terra as members, the civilians will have access to the Hub, all the facilities, it will be very interesting for the Terrans to discover our cultures our facilities our enjoyment places and all the technology that will serve science and evolution not only physically but also the technology will be with Consciousness and the Terrans will have access to some facilities where they will be able to experience expansion of consciousness.

Salla: So the primary function of the Ark then is to act as this kind of like Intergalactic community that Terrans can come to and just interface with whether it's to just to see and to experience a different culture or whether it's to kind of like participate in scientific research and development or you know in developing some kind of like exotic arts or Sciences, is that really something that all humanity is going to be allowed to access in some way?

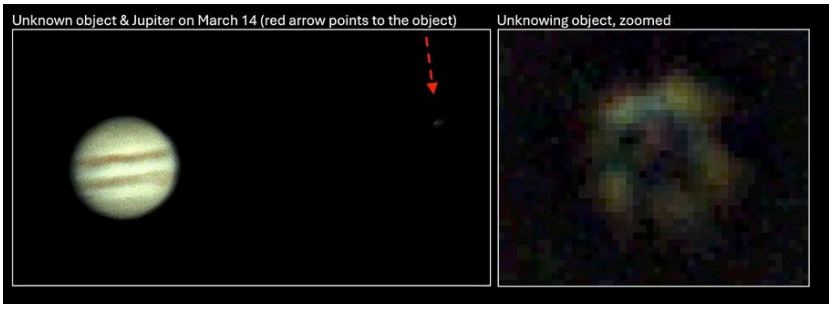
Elena: This will be a place of enjoyment, research, sharing discoveries and adventures and trade, this Hub is the response to a demand from the Intergalactic Confederation which decided that Ganymede wasn't big enough to sustain a large amount of visitors now that your star system is free, The Vortex is becoming how would I say, a place of trade and we need to secure this place of trade for the exchanges with this Hub, there will be a military presence, this hub will welcome civilizations from this galaxy even the farthest quadrant and other galaxies and it will be very interesting for the Terrans to interface with these new visitors, trade will be regulated, this needs to be, you will discover what it is like to be part of an Intergalactic culture because when you join membership with the Galactic Federation of worlds you become instantly member of The Intergalactic Confederation.

Terrans will be able to experience all these new cultures, they cannot do this now, I am speaking about the civilians, because it will be a cultural shock for them.

Elena's Comment March 16, 2026:
As I wrote at the time I was shown the Hub in construction, a year ago, there were indeed six modules: 5 above and one below, but my mistake was to represent the sixth below at the same level as the other ones. A perspective oops due to the angle and hectic path of the shuttle's flight. Today, March 16th, I saw eight modules: 5 above and three below. I noticed that at the time I made the first drawing (with the 6 modules), I represented the bridges in construction, below, for the future modules, without knowing.

Astronomer detects strange object outside of Jupiter

Below is the image of Jupiter and an unknown object on March 14, 2026 at 20:30 UTC. Canary Four 0.35-meter telescope.



An amateur astronomer on the Canary Four telescope that was pointing at Jupiter on March 14 got a surprising image! An unusual object right near the planet Jupiter that did not look like a typical satellite and it was confirmed that it is not an image artifact, but a real object that is present in each frame. His first thought was that it was simply one of the Jupiter's Moons (Galilean Satellites). But the more he analyzed the data, the more it became clear that it was not a moon of Jupiter. While a satellite moon shows the usual pixel colors typical for the planet — sand, beige, green, and gray — the unknown object displays almost the full rainbow: from pink and red to blue and green with yellow. By brightness, the unknown object is more than two times weaker than the a moon satellite (he measured the other satellites as well — they are all around 4,000 photons per pixel). The shape of the light distribution is also different: Jupiter's satellites have a spherical form, while the unknown object looks like a “bulb” or a “mushroom” (a stem with a cap).

The astronomer concludes after analyzing the data:

The unknown object near Jupiter, captured on March 14, 2026 at 20:30 UTC, does not match the criteria of known objects:

· A reference star — No stars are present at these coordinates or nearby according to star catalogs, and an 8-millisecond exposure is not sufficient to capture faint background stars.

· A Jupiter moon — The brightness profile and the shape do not match those of Jupiter's satellites.

· An asteroid — It would have to be unusually large to produce such a light profile with an exposure of only 8 milliseconds, while most asteroids are relatively small objects.

· An unknown comet — While the brightness and shape might partly fit, no coma or tail is visible.
